THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
 - (a) Any single contract with imported content exceeding US\$10 million.
or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.
or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.
or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- 2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTI for reporting purposes.
- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

- 3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.
- 3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:
- Bid / contract number.
 - Description of the goods, works or services.
 - Date on which the contract was accepted.
 - Name, address and contact details of the government institution.
 - Value of the contract.
 - Imported content of the contract, if possible.
- 3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Elias Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4 PROCESS TO SATISFY THE NIP OBLIGATION

- 4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:
- a. the contractor and the DTI will determine the NIP obligation;
 - b. the contractor and the DTI will sign the NIP obligation agreement;

- c. the contractor will submit a performance guarantee to the DTI;
- d. the contractor will submit a business concept for consideration and approval by the DTI;
- e. upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;
- f. the contractor will implement the business plans; and
- g. the contractor will submit bi-annual progress reports on approved plans to the DTI.

4.2 The NIP obligation agreement is between the DTI and the successful bidder (contractor) and, therefore, does not involve the purchasing institution.

1. BACKGROUND

The Ideal Clinic Realisation and Maintenance (ICRM) programme for improving quality of the Primary Health Care (PHC) facilities' service platform was approved by the Cabinet of South Africa in 2014, as part of Operation Phakisa. This resulted in an instruction to the National Department of Health (NDoH) to scale-up the programme to PHC(Community Health Centres and clinic) facilities in all 52 districts. It has become necessary to intensify scale-up to enable facilities to receive accreditation for the National Health Insurance (NHI).

The ICRM programme was conceptualized as an internal mechanism for continuously improving the quality of PHC services. The programme is currently managed by the Chief Directorate: District Health Services (DHS), reporting to the Deputy Director-General: PHC known as the Ideal Health Facility Realisation and Maintenance (IHFRM), following the introduction of the Ideal Hospital Framework to include District Hospital.

2. OVERVIEW OF THE IDEAL HEALTH FACILITY REALISATION AND MAINTENANCE PROGRAMME

The IHFRM was developed on the back of the Ideal clinic realisation and maintenance programme, which was launched through Operation Phakisa. The IHFRM continues on the same trajectory of the ideal clinic, which bears the same definitional features.

At the time of the launch of the Operation Phakisa, an Ideal Clinic was and continues to be defined as a clinic with good infrastructure, adequate staff, adequate medicine and supplies, good administrative processes and sufficient bulk supplies, that uses applicable clinical policies, protocols, guidelines as well as partner and stakeholder support, to ensure the provision of quality health services to the community.

An Ideal Clinic will cooperate with other government departments as well as with the private sector and non-governmental organisations to address the Social Determinants of Health (SDH). To function optimally and remain in a condition that can be described as the "Ideal Clinic", PHC facilities must be maintained.

The IHFRM was developed to accommodate the hospitals, which have already been included in the monitoring software. In the implementation of the IHFRM programme, the Frameworks have been developed for the hospitals (Version 2), Community Health Centres (CHCs) and clinics frameworks have been merged into Version 20. The different versions are updated as and when needed. A lot of progress has been made regarding the ideal clinics, community health centers, and district hospitals, which will become areas of focus for the term of the contract.

3. SCOPE OF WORK

3.1 General

The Chief Directorate: DHS in the NDoH invites a professional service provider to facilitate the implementation of the IHFRM through an improvement and maintenance of the current status the IHFRM programme in nine provinces for a period of three (3) years. The scope of work is further described below:

3.2 Technical support to districts

The bidder will provide technical support to all PHC facilities including district hospitals in the fifty-two (52) districts to attain an ideal status, including but not limited to:

3.2.1 Baseline Status Determination

The Baseline Status Determination (BSD) is conducted by all PHC facilities in the first quarter of the financial year, as per the ICRM Cycle. The activity for PHC facilities is led by the Facility Operational Manager (FOM) and captured on the ICRM software. For district hospitals the self-assessment process is led by the hospital Chief Executive Officer (CEO). Following this activity, a Quality Improvement Plan (QIP) is automatically generated by the software, informed by all the gaps identified. The QIP is implemented by the facility.

3.2.2 Validation of the Baseline Status Determination outcome

During the second quarter of the financial year, the validation of BSD of all PHC facilities and district hospitals is conducted by the PPTICRM as per the IHFRM

Cycle. The activity is then captured on the IHFRM software after which a QIP is automatically generated, informed by all the gaps identified. The QIP is implemented by the facility supported by the district PPTICRM.

3.2.3 Peer Reviews

All the PHC facilities and district hospitals identified for the scale-up plan are peer reviewed in the third quarter of the financial year. This is an inter-district activity conducted by the PPTICRMs as per the IHFRM Cycle. Similarly, a special request is made for capturing rights to access the peer reviewed facilities. Subsequently, a QIP is automatically generated, informed by all the gaps identified. The QIP is implemented by the facility supported by the district PPTICRM.

3.2.4 Peer Reviews Updates

The Peer Reviews Updates (PRUs) are conducted on all PHC facilities and district hospitals that have been peer reviewed by the PPTICRMs, in the last quarter of the financial year, as per the IHFRM Cycle. The activity is then captured on the IHFRM software as PPTICRM PRU. The QIP is implemented by the facility supported by the district PPTICRM.

The service provider is expected to ensure optimum functionality of the PPTICRMs at the provincial, district and sub-district levels.

3.3 DATA MANAGEMENT

The NDoH requires information to provide to the users, provinces, districts and other stakeholders through specific routine and adhoc reports. For this reason, the service provider must manage the IHFRM programme and ensure availability of routine performance data for monthly, quarterly as well as the annual reporting requirements. The integrity of the database must be maintained, regular version testing and upgrading must be conducted to enhance data output, in line with the IHFRM Frameworks and manual.

3.4 CAPACITY BUILDING

The performance of the service provider will be monitored through a Service Level Agreement (SLA) which is aligned with advertised Terms of reference of this bid and will be effected through an annual work plan which will be submitted by the service provider with clear set of deliverables for each financial year which must be submitted by the service provider for a period of 3 years. Project Management methodologies will be followed in executing and managing the contract.

3.5.2 Monitoring

Monitoring of progress on deliverables must be achieved through regular formal and informal processes, projects and technical meetings between NDoH and the service provider to monitor the SLA.

3.5.3 Reporting

Strict quarterly reporting on the annual work plan deliverables in paragraph 3.5.1 as well as financial expenditure reporting will be adhered to. An Annual Report will be produced at the end of each financial year.
