The main objective is to appoint an accredited and qualified service providers (CIDB Grade 3EB or higher or 2EBPE) for the supply, installation and commissioning of hybrid inverters, solar panels and lithium batteries to serve as backup electricity supply for seven (07) SASSA Local offices in the Eastern Cape region.

2. BACKGROUND

The SASSA was established in terms of the South African Social Security Agency Act, 2004 (Act no. 9 of 2004) to administer social security grants in terms of the Social Assistance Act, 2004 (Act no. 13 of 2004).

The Agency is mandated to ensure effective and efficient delivery of service of high quality with regard to the management and administration of social grants such that the entire payment process and system from application to receipt of social grants by a beneficiary, is done in a manner that is sensitive, caring and restores the dignity of the beneficiaries as well the integrity of the whole system. Some of the offices that SASSA occupies are shared with the Department of Social Development (DSD).

To achieve the goals mentioned above, the Agency has recognized the importance of providing reliable power source, a backup or independent power source that stores or creates its own power which strive for affordable and clean energy. A system like this can be used in cases where traditional electricity and power sources are not reliable or the equipment that is being powered cannot go without power for long periods at a time. In short, alternative power is there to prevent any challenges that may occur in an event where the power supply suddenly stops working.

The region has identified **seven (07)** offices that are constantly experiencing power outages in their respective Local offices which are as follows:

- Ngqamakwe Local office
- Middledrift Local office
- Tsomo Local office
- Whittlesea Local office
- Peddie Local office
