1	The bidder would like to confirm that the main bidder / principal contractor's <u>fabricator or supplier (i.e. subcontractor)</u> will have the ISO 3834 certification and that this would satisfy the mandatory requirement. I.e. the ISO 3834 certification to be linked to the fabricator and <u>not</u> to the principal contractor.	The principal contractor is the one that should have this certificate and not the subcontractor unless if there is a joint venture or agreement between the two service providers.
