1. DEPARTMENTAL AND PROGRAMME OVERVIEW

During the financial year (2024/25), the Department of Economic Development, Tourism and Environment Affairs (EDTEA) will be implementing forty-two (42) IASP EPWP projects and these projects serve as one of the Department's response to job creation and skills development. The 42 projects deal with the management and control of invasive alien plant species within targeted local municipalities of the KZN province, hence these projects also serve as the Department's response to its environmental mandate of biodiversity protection. Training and capacity development are a critical element for implementation of EPWP projects as it equips participants with skills required to carry out assigned tasks effectively and efficiently. Hence one of the Department's APP output refers to training of 1000 participants on invasive alien species plants eradication. The Department has identified herbicide applicator as one of the critical trainings required by the EPWP participants involved with invasive alien plants clearing projects. It is against this background, that the Department wishes to solicit services of suitably qualified Training Service Provider that will assist to render the identified herbicide applicator training.

2. RATIONALE OF THE PROJECT

According to the Code of Good Practice for Special Public Works Projects read together with the Ministerial Determination, workers employed in EPWP projects are expected to receive training. The training of EPWP participants is informed by lack of skills that is still being experienced by many South African citizens, hence training of EPWP participants remains the most critical element of the Department. Among the many reasons why training of EPWP participants is critical are the following:

- ✓ The EPWP programmes employ people from rural communities that may not have any background on the work required to be undertaken by the project teams, hence the provision of training is critical as it can assist the participants to learn and perform their assigned duties effectively and efficiently.
- ✓ Some of the work activities of the EPWP projects involve handling of chemicals and herbicides, therefore, this automatically compels the Department to comply with several prescripts which regulate the use of such chemicals. Among the prescripts is the Health and Safety Act (Act No. 85 of 1993) and the Hazardous Chemical Substances Regulations of 1995. Both prescripts mandate the employer (in this case the Department, by extension) to provide critical accredited trainings to persons handling the chemicals.
- ✓ According to one prescript that regulates the use, transportation and handling of chemicals/herbicides in the country, it states "Any person who for reward or in the course of a business, industry or trade uses an agricultural remedy must register as a Pest Control Operator in terms of the Fertilizers, Farm Feeds, Agricultural Remedies and Stock Remedies Act (Act No. 36 of 1947) as amended and the regulations relating thereto as published in Government Notice No. R1449 of 1 July 1983." The IASP projects operations are within the industry or trade, that uses agricultural remedies (chemicals), and in terms of the Act, persons who supervise the IASP project teams (Project Officers and Contractors) should have a valid pest control certificate. In essence this Act compels the Department to ensure that project participants receive the herbicide applicator training course, which by extension will enable them to acquire the Pest control operator license.
- ✓ Lastly, the provision of training courses will also enable EPWP participants to access better employment opportunities when they exit the Departmental EPWP programmes.

Currently the Department does not have inhouse capacity to facilitate the Herbicide Applicator training and it is in this context that services of a qualified and professional training service provider is required.

3. PURPOSE OF TERMS OF REFERENCE

The purpose of the Terms of Reference is to solicit a training service provider with an accreditation from Fibre Processing and Manufacturing Sector Education and Training Authority (FP & M- SETA) or accredited by any other relevant SETA to assist the Department with training of IASP project workers on Herbicide Applicator course based on **Unit Standard 123134, titled “Apply herbicide to noxious weeds” NQF Level 1, Credits 3**. By making this declaration, I understand that I am not allowed to present myself as a candidate to any other tenderer submitting a tender to this tender procedure. I am fully aware that if I do so, I will be excluded from this tender procedure, the tenders may be rejected, and I may also be subject to exclusion from other tender procedures and contracts funded by the KZN Department of Economic Development Tourism and Environmental Affairs.

Furthermore, should this tender be successful, I am fully aware that if I am not available at the expected start date of my services for reasons other than ill-health or *force majeure*, I may be subject to exclusion from other tender procedures and contracts funded by the KZN Department of Economic Development Tourism and Environmental Affairs and that the notification of award of contract to the tenderer may be rendered null and void.
