RFP-43-25/26**

REQUEST FOR RFP CLARIFICATION - QUESTIONS

1. With regards to site specific onboarding, safety training and induction how many days provision we have to make
2. Is there a specification for the site office (Can we site Hut)
3. Will a truck with a Hiab be allowed to off load high mast
4. For the removal of 5 existing mast poles
 - a) Do we have to cater for transportation of poles if so to where
 - b) Do we have to cater for removal of all existing cables, c) Do we cater for removal of existing foundations
5. Are the new 6 high mast to be build at exactly the same position as the existing 5 high masts
6. Is there as site specific staff transportation specification or requirements such as use of local taxis etc.
7. Is there an existing geotech report for the existing high mast or location where the new high mast are to be installed
8. Is it possible to share the high mast site layout electronically

9. We didn't attend the site clarification meeting because the invitation says is not compulsory but when we read the technical scope it says is compulsory. Pls help clarify.

10. The scope for manufacturing and supply of the lights and highmast poles, geotech and engineering design will be done by thirdparties as per scope do we need to list them as subcontractors

11. Can you please also assist with these 2 Specifications
