1. PURPOSE AND BACKGROUND

1.1 PURPOSE

In order to deliver against its mandate, the COMPENSATION FUND needs to improve its efficiency, effectiveness, and security and information reliability to deliver more with less. This drive for better, faster and cheaper service is required to be delivered with the relevant controls in terms of best practice and good governance in a cost effective manner. A key element in this move towards effectiveness and efficiency is the use of ICT that drives connectivity with the COMPENSATION FUND customers. It is the CIO vision "to contribute to the departmental vision through the provision of ICT solutions and services" and the mission is to SERVE the department. This acronym completely echoes the SERVE mission;

Strategic direction – Maintain and champion the strategic direction for ICT in the department;

Efficiency – Maximize the efficiency of the ICT organization as well as provide solutions to improve business efficiency;

Reliable and stable operations – Ensure stable and predictable ICT service and solution delivery;

Value creation – Contribute to citizen value creation through the delivery of value adding projects and initiatives; and

Empowerment – Contribute to the local ICT labour market through selectively building core and scarce ICT skills in the Department with and through ICT industry partners.

The main purpose of publishing this Terms of Reference is to source a Service Provider that will assist the COMPENSATION FUND with increasing the physical memory of the SAP HANA database servers. Installation of the memory will capacitate the Development (DEV), 2 Quality Assurance (QA) and 2 Production (PROD) SAP HANA system environments.

1.2 BACKGROUND

The Compensation Fund herein under referred to as the Fund, is a public entity of the Department of Employment and Labour. The Fund administers the Compensation for Occupational Injuries and Diseases Act no. 130/1993 as amended by the COIDA 61/1997. The main objective of the Act is to provide compensation for disablement caused by occupational injuries or diseases sustained or contracted by employees, or for death resulting from such injuries or diseases and provide for matters connected therewith.

The Fund generates its revenue from levies paid by employers, which consists of annual assessments paid by registered employers on a basis of a percentage or a fixed rate of the annual earnings. The COID Act, however, makes provision for a minimum assessment to ensure that the assessment is not less than the administered costs incurred.

The main function of the Fund is to collect revenue, pay medical service providers and compensation benefits to employees. This function requires an electronic service oriented operational system, to administer COIDA with online registration of CompEasy DEV, QA and PROD servers, accidents, automated claims and medical processes to ensure accuracy and consistency.

In line with its strategic goal the Fund wants to deliver faster and reliable COID services by 2020, the ideal systems must therefore incrementally help the CF to reach an optimized, uninterrupted service continuation, improved customer satisfaction and overall process efficiencies.

The core business processes for the return of earnings are depicted in green in Figure 1:

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete
