ETHEKWINI MUNICIPALITY

OCCUPATIONAL HEALTH AND SAFETY

OCCUPATIONAL HEALTH AND SAFETY ACT 1993, (ACT NO. 85 OF 1993) MANDATORY AGREEMENT – 37.2

Contractor Acknowledgement of Responsibility in terms of the Occupational Health and Safety Act

Written agreement between ETHEKWINI Municipality (the “employer”)

I hereby declare that I,, representing eThekweni Municipality fromUnit

And
(the “mandatary”)

as provided for in terms of Section 37 (2) of the Occupational Health and Safety Act No.85 of 1993 as amended by Act 181 of 1993.

I hereby declare that I,, am authorised to represent the “mandatary” and acknowledge that the “mandatary” is an employer in its own right with all duties and responsibilities as prescribed in the Occupational Health and Safety Act no. 85 of 1993 and its Regulation and other applicable Legislations .

I agree to ensure that all work performed, or machinery and plant used by the “mandatary” on any ETHEKWINI Municipality premises shall be in accordance with the provisions of the said Act.

Furthermore, I agree the “mandatary” shall comply with all ETHEKWINI Municipality site rules and safety, health, and environmental requirements as may be communicated or stipulated by ETHEKWINI Municipality prior to and during the course of any Contract awarded to the “mandatary” by ETHEKWINI Municipality.

Furthermore, I undertake to ensure that ETHEKWINI Municipality is timeously informed should the “mandatary”, for whatever reason, be unable to perform in terms of this agreement.

The Contractor must, before the commencement of any work and during work, have risk assessment performed by a competent person appointed in writing; the contractor must have a documented plan and applicable safe work procedures to mitigate, reduce or control the risks and hazards that have been identified.

The Contractors must keep the risk assessment and writing safe working procedures in the safety file.

The Contractor shall ensure that all employees under his control, including subcontractors' employees and visitors, undergo a health and safety induction training conducted by a competent person before commencement of construction work.

The Contractor shall appoint a Supervisor with the duty of supervising the performance of the work.

The Contractor shall appoint the Health and Safety Representative where 20 employees at working in high risk areas, 50 employees working in a normal workplace and 100 employees working in shops and offices.

The Contractor shall ensure that all vehicles are in good working condition and safe for use, and that they are used in accordance with their design and intended use. The vehicles shall only be operated by operators who have received appropriate training and have a medical certificate of fitness to operate those construction vehicles and mobile plant.

The Contractor shall ensure that all vehicles are Road Worthy certified by the Department of Transport.

A Contractor must ensure that all his or her employees have a valid medical certificate of fitness issued by Occupational Health Practitioner in the form of Annexure 3. The validity of the medical certificate of fitness shall be determined by Occupational Health Practitioner based on the risk.

The Contractor shall ensure that all employees under his control are always wearing the appropriate Personal Protective Equipment when on construction site.

The Contractor shall provide a fully equipped first aid box with a trained employee to administer first aid treatment to construction site employees. The Contractor must develop an Injury on Duty procedure to be followed by all employees in the event of work-related injuries and diseases.

The Contractor must be registered and in good standing with the Compensation Fund or a licensed Compensation Insurer, a proof of updated letter of Good Standing to be filed in the "Safety File"

The contractor is expected to have a daily safety "toolbox" meeting, to reinforce good health and safety practice, attendance records to be filed in the safety file.

The Contractor shall develop the Health and Safety Plan/Safety file detailing all his/her safety measures which will be subject to monthly audit review to ensure compliance.

The Contractor health and safety information and training records must be filed in the safety file.

The Contractor shall ensure that all his/her equipment are inspected on monthly basis using the appropriate register and service records are kept in the safety file.
