SUPPLIER BANK ACCOUNT

The "Bank Verification Status" field indicates that the bank account details submitted by the supplier exist at the bank and that the bank account details are valid. However, as this supplier does not have an identifying number (like a South African ID number, or Company Registration number, or NPO number or Trust number) linked to their bank account details at their respective bank, the CSD system cannot electronically verify that the bank account belongs to the specific supplier. The supply chain practitioner is therefore responsible to obtain supporting documentation to verify that this bank account belongs to this supplier.

TAX INFORMATION

The "Overall Tax Status" field indicates the compliance status of the tax information submitted. However, as this supplier does not have an identifying number (like a South African ID number, or Company Registration number, or Trust number) linked to their tax details at SARS, the CSD system cannot electronically verify that the tax reference numbers belongs to the specific supplier. The risk is however partially mitigated by the SARS Tax Compliance Status (TCS) PIN Number, successfully provided by the Supplier. The supply chain practitioner is however still responsible to obtain supporting documentation to verify that the tax reference numbers belongs to this supplier.
