SCOPE OF WORKS FOR BID ERW202107/TNDR003: THE COLLECTION, TRANSPORTATION AND DISPOSAL OF SCREENINGS, GRIT AND GENERAL WASTE FROM ALL ERWAT SITES TO A REGISTERED HAZARDOUS WASTE LANDFILL SITES FOR A PERIOD OF THIRTY-SIX (36) MONTHS AS AND WHEN REQUIRED.

2.1 SCOPE OF WORKS/SPECIFICATIONS

2.1.1 BACKGROUND

Ekurhuleni Water Care Company (ERWAT) operates and manage water care works (WCWs) in the City of Ekurhuleni, Lesedi and Midvaal Municipalities. ERWAT operate its water care works as guided by the Water Use License Authorisation (WULA) in accordance to the National Water Act, 1998 (Act 36 of 1998). One of the conditions as per the WULA is the disposal of screenings and grit in an environmentally friendly manner, at dedicated and registered landfill sites. However, ERWAT is experiencing challenges of waste management in some of its WCWs, in terms of waste collection, transportation and disposal into the landfill sites.

2.1.2 SCOPE OF WORK

ERWAT would like to invite Service Providers to assist with the collection, transportation and disposal of screenings and grit, and general waste from the selected ERWAT WCWs to the identified landfill sites for a period of 36 months on an "as and when required basis". The quantities of screenings and grit, and general waste that need to be collected and transported to landfill sites will vary from different WCWs. All the quantities are indicative and cannot be guaranteed as there are variations which can occur due to seasonal changes, scheduled, and unscheduled equipment shut-downs or process incidents.

The collection, transportation and disposal will be conducted on a daily basis or as and when a need is realised, including weekends and holidays throughout the year for a period of three (3) years, so the arrangements need to be made with the landfill sites. The collection and transportation will be made from the selected WCWs, as per ERWAT's area of operation (See Figure 1 below), spreading across the City of Ekurhuleni, Lesedi and Midvaal Municipality.

2.1.3 TECHNICAL INFORMATION

2.1.3.1 General information

The collection, transportation and disposal of screenings and grit, and general waste is required for proper waste management and compliance with WULA conditions. It is therefore, expected of the service provider to perform this function properly, to satisfy all the necessary legislative requirements such as the National Water Act and the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008).

The assessment that was conducted previously in ERWAT showed the quantities of the waste produced at each WCW, which then informed the frequencies for collection and the resources required for storage (See Table 2.3.1 below). However, it must be noted that these are indicative figures and the information is supplied for information sharing only, and to paint the picture of the situation at hand. ERWAT therefore does not guarantee that the quantities below may never increase or decrease.

Alternative additional disposal sites can be included in this contract, as and when required by ERWAT, this will be added advantage not only to rely on one disposal landfill site.

2.1.3.4.3 Screening, grit & general waste removal will be stored (stored in 6m³) and loaded at a location that ERWAT deems necessary, but is usually found in close proximity to the inlet works or head of works – this may vary from plant to plant, all related activities to access, move, collect, and load screenings and grit loading location is the responsibility of the Contractor.

2.1.3.4.4 The cleaning of spilled screenings, grit and general waste around the loading bay, onsite roads, the ERWAT site entrance and public roads remains the responsibility on the Contractor. certain periods, some screenings and grit might stick to the inside floor of the skip bin. The regular cleaning of the skip truck / skip bin will be highly recommended.

2.2.1.1 TECHNICAL / FUNCTIONALITY EVALUATION

Potential service providers will have to achieve minimum number of **75 points out of 100** for their technical proposals before their financial proposals and B-BBEE status are evaluated as set out the tables below. This is required so that there is a level of comfort that the potential service provider can deliver the project with the required professionalism and quality.

2.2.1.1.1 Scoring Process

The Technical / Functional Evaluation Task Team will be established to determine the following:

- Whether or not the Bidder understood the project specifications.
- The bidders experience with similar projects.

No alteration of technical / functionality proposals will be permitted after the deadline for receipt of bids. Questions may be asked for clarification needed to evaluate their proposals, but bidders would not be permitted to change the substance or price of their bids after bid opening. Requests for clarification and the bidder's responses would be made in writing. No interviews will be conducted in this regard.

Functionality Documentation must either be attached to the applicable Returnable Schedule as stated below or can be bound into a separate volume and clearly referenced to in each of the applicable schedules.

If the functionality document is not attached to the page or clearly referenced it will be deemed not to have been included.
