TERMS OF REFERENCE FOR APPOINTMENT OF A SERVICE PROVIDER FOR PROVISION OF AN ONLINE SATELLITE IMAGERY, PORTAL FOR VIEWING, DOWNLOADING SATELLITE IMAGERY AND VALUE-ADDED SERVICES FOR A PERIOD OF 36 MONTHS

1. INTRODUCTION

Change detection implies quantifying temporal effects using a multi-temporal dataset. The application of remote sensing data is a popular change detection technique because of its high temporal frequency, digital computation, synoptic view, & wider selection of spatial and spectral resolution. The general objectives of change detection in remote sensing include recognizing the geographical location and type of changes, quantifying the changes, and assessing the accuracy of change detection results. Detecting temporal changes for the earth surface by observation at different times is one of the most important applications of earth orbiting satellites because they can provide multi-date digital imaging with consistent image quality, at short intervals, on a global scale, and during a complete seasonal cycle.

2. PROJECT DESCRIPTION

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
