TENDER BULLETIN NO.2

Date: 29 April 2022

TENDER ENQUIRY NO: CTT22472
DESCRIPTION: ROTARY WING AVIATION SERVICES FOR PetroSA IN MOSSEL BAY

Subject: Technical Clarifications

Q1	The costing sheet does not allow for options of 2, 3 or 5 years
Answer	Please take note of revised CBA attached to this bulletin
Q2	For all options, please can you provide clarity on: 1. The dedicated aircraft 1 day a week, and sharing standby 24/7, considering weather conditions, will PetroSA pay for both aircraft until flights can resume. 2. Is the shared standby aircraft to be available on flying days only? 3. Dedicated aircraft for 1 day only crewed for this day?
Answer	1. PetroSA will pay for both aircraft for as long as they are in our use. This will only be applicable on weather delays or other delays caused by PetroSA 2. Yes, the shared standby must be located at the base during crew change but can be based elsewhere for the rest of the week. They can work out a sharing arrangement in terms of where the aircraft is located for a certain number of days in a week. As stated we still want to have access to the standby on non-flying days as well but it doesn't have to be at our base 3. Yes, dedicated aircraft to be crewed for 1 day. Additional days due to weather delays will be paid by PetroSA.
