Offer by Contractor appointed through an urgent procurement process

Offer

The *Employer*, has solicited a Quotation from the Contractor for the provision of:

Scope of Work

Emptying of Septic Tanks and Disposal of Sewage Waste from Apollo Converter Station, Olifantsfontein for a period of 07 Months.

1. Introduction

This Scope of Work defines the requirements for the safe, hygienic, and environmentally compliant emptying of septic tanks and lawful disposal of collected sewage waste in accordance with applicable local environmental and public health regulations.

2. Objectives

- To remove accumulated sludge, scum, and wastewater from septic tanks.
- To prevent system overflow, contamination, and environmental hazards.
- To ensure proper transportation and disposal of sewage waste at Licensed treatment facilities.

3. Scope of Services

The Contractor shall provide the following services:

3.1 Pre-Operational Activities

- Site inspection and assessment of septic tank location and accessibility.
- Confirmation of tank capacity and estimated waste volume.
- Implementation of safety measures and barricading of work area.

3.2 Septic Tank Emptying

- Deployment of vacuum tanker trucks (honey sucker trucks) with adequate capacity.
- Opening of tank covers and inspection of internal conditions.
- Complete suction removal of:
 - Sludge
 - Scum layer
 - Liquid effluent

3.3 Transportation

- Secure sealing of tanker before transportation.
- Transport of collected waste to an authorized wastewater treatment facility.
- Compliance with transportation regulations for hazardous/biological waste.

3.4 Disposal

- Disposal only at approved/Licensed sewage treatment plants or designated dumping facilities.
- Submission of Waste manifests, disposal receipts or proof of lawful discharge.
- Compliance with environmental regulations and guidelines issued by local authorities.

3.5 Post-Operation Activities

- Reporting of any structural defects or maintenance issues observed.
- Submission of service report including:
 - Date of service
 - Volume removed
 - Disposal site details (Including stamps)
 - Observations and recommendations

4. Equipment and Materials

The Contractor shall provide:

- Vacuum tanker truck(s)
- Suction hoses and pumps
- Personal Protective Equipment (PPE)
- Warning signage and barricades

5. Health, Safety & Environmental (HSE) Requirements

- Compliance with occupational health and safety regulations.
- Mandatory use of PPE (gloves, masks/respirators, boots, protective clothing).
- Proper management of spills or accidental discharge.
- No illegal dumping under any circumstances.
- Immediate reporting of environmental incidents.

6. Frequency of Service

- Routine emptying: 30 000 Litres of sewage waste Twice (02) a week (as required).
- Emergency services: Within 02 hours of notification.

7. Contractor Qualifications

- Valid waste transportation and disposal licenses.
- Trained and certified operators.
- Experience in septic tank servicing.

8. Deliverables
