

Technical evaluation criteria for thermography equipment			
TASK / MEASURE			
Mandatory: Failure to submit all the required documents will result to the tenderer being disqualified for further evaluation			
Criteria	Weighting	Score	Comments
General properties of the camera, as per section 3.2. Documentary evidence to support in the form of a datasheet required.	20% = if all the general properties are met		
	10% = if 70% of the general properties are met		
	0% = if less than 70% of the general properties are met		
Camera must come with analysis software with acoustic and route plugin - 10 user license suitable for the camera provided. Documentary evidence to support in the form of a datasheet required and a letter from the supplier indicating the number of licenses provided.	20% = if the camera comes with a 10 user license		
	10% = if the camera comes with < a 10 user license		
	= 0% If the camera does not come with analysis software		
Technical specifications must align to Section 3.3.1. Documentary evidence to support in the form of a datasheet required.	60% = if the camera has all the specs in section 3.3.1		
	60% = camera has more than 70% of the specs in section 3.3.1.		

Technical evaluation criteria for thermography equipment			
TASK / MEASURE			
Mandatory: Failure to submit all the required documents will result to the tenderer being disqualified for further evaluation			
Criteria	Weighting	Score	Comments
	0% = if the camera has less than 70% of the specs in section 3.3.1.		
TOTAL			
threshold = 90% (any mark below 90% indicates that the supplier does not technically comply)
