No.	ADDENDUM 3
	<u>CHANGE TO TECHNICAL CRITERIA:</u> <u>ANNEXURE E - TENDERERS RESOURCE LIST</u>
	This addendum outlines an amendment introduced to the technical evaluation criteria that Eskom will use to assess tender submissions for the supply, installation, commissioning and maintenance for E3480DXKZNOU Maqhashiya PV Project. The amendment in the criteria relates specifically to the Tenderer's Resource List. The criteria for evaluating the proposed project remains covered under the original Technical Evaluation Criteria E3480DXKZNOU. The amended Annexure now provides the Tenderer with the option to indicate whether specialised resources are employed by, or sub-contracted to, the Tendering company. The specialised work resources are limited to: the Project Manager for the site, the Civil Technician and the Quantity Surveyor. The compliance criteria applicable for the specialised work resources that may be sub-contracted are exactly the same criteria as for those resources employed by the company. For those specialised resources that are sub-contracted by the Tendering Company, a formal Letter of Agreement shall be submitted as evidence stating explicitly that the resources are contracted to the Tendering Company to provide the services required in respect of the Maqhashiya project and that these resources shall be available to execute responsibilities for the entire duration of the project The Tenderer's Resource List is a returnable document for the Mandatory Criteria evaluation. The Amended Annex E Tenderers Resource List Shall be used for Tender – E3480DXKZNOU _ PLEASE CKECK THE ADDENDUMS FOLDER & TECHNICAL FOLDER ON THE ESKOM TENDER BULLETIN FOR THE ADDENDUM.
