This Standard Bidding Document (SBD) must form part of all bids invited. It contains general information and serves as a declaration form for local content (local production and local content are used interchangeably).

Before completing this declaration, bidders must study the General Conditions, Definitions, Directives applicable in respect of Local Content as prescribed in the Preferential Procurement Regulations, 2017, the South African Bureau of Standards (SABS) approved technical specification number SATS 1286:2011 (Edition 1) and the Guidance on the Calculation of Local Content together with the Local Content Declaration Templates [Annex C (Local Content Declaration: Summary Schedule), D (Imported Content Declaration: Supporting Schedule to Annex C) and E (Local Content Declaration: Supporting Schedule to Annex C)].

1. General Conditions

- 1.1. Preferential Procurement Regulations, 2017 (Regulation 8) make provision for the promotion of local production and content.
- 1.2. Regulation 8. (2) prescribes that in the case of designated sectors, organs of state must advertise such tenders with the specific bidding condition that only locally produced or manufactured goods, with a stipulated minimum threshold for local production and content will be considered.
- 1.3. Where necessary, for tenders referred to in paragraph 1.2 above, a two stage bidding process may be followed, where the first stage involves a minimum threshold for local production and content and the second stage price and B-BBEE.
- 1.4. A person awarded a contract in relation to a designated sector, may not sub-contract in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.
- 1.5. The local content (LC) expressed as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 2011 as follows:

$$LC = [1 - x / y] * 100$$

Where

x is the imported content in Rand

y is the bid price in Rand excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by South African Reserve Bank (SARB) on the date of advertisement of the bid as indicated in paragraph 3.1 below.

The SABS approved technical specification number SATS 1286:2011 is accessible on [http://www.thedti.gov.za/industrial development/ip.jsp](http://www.thedti.gov.za/industrial%20development/ip.jsp) at no cost.

- 1.6. A bid may be disqualified if this Declaration Certificate and the Annex C (Local Content Declaration: Summary Schedule) are not submitted as part of the bid documentation;

2. The stipulated minimum threshold(s) for local production and content (refer to Annex A of SATS 1286:2011) for this bid is/are as follows:

<u>Description of services, works or goods</u>	<u>Stipulated minimum threshold</u>
_____	_____ %
_____	_____ %
_____	_____ %

3. Does any portion of the goods or services offered have any imported content?
(Tick applicable box)

YES	☐	NO	☐
-----	--------------------------	----	--------------------------

- 3.1. If yes, the rate(s) of exchange to be used in this bid to calculate the local content as prescribed in paragraph 1.5 of the general conditions must be the rate(s) published by SARB for the specific currency on the date of advertisement of the bid.

The relevant rates of exchange information is accessible on www.resbank.co.za

Indicate the rate(s) of exchange against the appropriate currency in the table below (refer to Annex A of SATS 1286:2011):

2. INTRODUCTION AND BACKGROUND OF THE PROJECT

The Department of Economic Development, Tourism and Environmental Affairs (EDTEA) is legislatively mandated to champion and promote sustainable economic growth in the province of KwaZulu-Natal (KZN).

The Provincial Government of KwaZulu-Natal (KZN) has crafted the Provincial Growth Strategy which is aligned to the National Development Plan (NDP) in charting the course into 2030. The province has identified that the realization of the strategy will work best through the realization of the Provincial Spatial Economic Development Strategy which incorporates the Special Economic Zones (SEZ) programme. The alignment and interpretation of these policies has resulted in the development of Industrial Economic Hubs. The development of industrial economic hubs is considered as a key

intervention to foster and enhance higher levels of economic growth in specific sectors of the provincial economy, whilst also serving to address the spatial economic inequalities and to open up economic growth opportunities to neglected parts of the province. Moreover, EDTEA launched the Industrial Economic Hubs initiative to harness and deepen re-industrialization of the provincial economy through integrated stimulation of the manufacturing sector, foster pointed and systematic urbanization and infrastructure development. Regional industrial economic hubs and Special Economic Zones (SEZs) are industrial development instruments being deployed by EDTEA in an attempt to develop a globally sustainable and resilient regional economy in the province. Industrial Economic Hubs have been identified in all district municipalities based on the comparative advantages of each district and in response to the adverse socio-economic condition of unemployment, poverty, inequality and slow economic growth.

The Clothing and Textile industrial Economic Hub (IEH) is being carried out as an important and integral part of the industrial economic hubs which are part of the provincial industrial development derived from the provincial Growth and Development strategy which is aligned to the national policies and strategies. Madadeni local municipality, section 6 has been identified as the host of the Clothing and Textile Industrial Economic Hub. The land would be adequate to house a large scale anchor tenants, SMMEs & entrepreneurial clothing and textile industry operators & Incubators.

The Clothing and Textile Industrial Economic Hub strives to add value by improving or developing local clothing and textile entrepreneurs. An incubation centre in the clothing and textile industrial Economic Hub will cover the theory and physical training of the value chain of Textile which is the manufacturing of fabric and Clothing which is the manufacturing of garments. This will enable the SMMEs/ Cooperatives/ entrepreneurs to learn more about the clothing and textile industry and fill in the gaps of what lacks in their establishments. The industrial sewing machine mechanic training will feed into the incubation centre, it's a skill the entrepreneurs will hold, and utilize in the functioning of their establishments and its also a vital skill they will utilize when accessing the services that will be rendered by the incubation centre.

One of the challenges encountered in the Clothing and Textile SMMEs and Cooperatives establishments is that there are no mechanics on site and this hinders production. Sewing machine mechanics don't last long in these establishments as there is less monetary value in terms of income.

Training Clothing and Textile SMMEs and CO-Ops on the Sewing machine mechanic will be beneficial as :

- The cooperatives and SMMEs won't have to wait for days for a mechanic to come to their establishment when their machines breakdown thus production wont be affected.
- They will be able to transfer the skill to the youth amongst their establishment and the skill will always remain amongst their business.
- The skill will feed into the clothing and textile IEH incubation centre.
