CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1. PURPOSE

- 1.1 To appoint a service provider to assist the Department of Forestry, Fisheries and Environment (DFFE) to further assess the implications of the ratification of the Nagoya Kuala Lumpur supplementary protocol by South Africa in the context of trade and financial security for a period of twelve (12) months.

2. INTRODUCTION AND BACKGROUND

- 2.1. The Nagoya Kuala Lumpur Supplementary Protocol on Liability and Redress herein after referred to as (the Supplementary Protocol) is an international treaty that, in accordance with its Article 16, paragraph 1, supplements the Cartagena Protocol on Biosafety without modifying or amending the latter. It was adopted by the Conference of the Parties serving as the meeting of the Parties to the Cartagena Protocol on Biosafety of which South Africa is a Party to since 2004.
- 2.2. The Supplementary Protocol entered into force on 5 March 2018 and it seeks to deal with damage to biodiversity as well as 'associated' traditional material or personal damage. It delineates two pathways to dealing with such damage: the administrative approach that empowers a competent authority to deal with the matter administratively, without initial recourse to courts; and a civil liability approach that requires litigants to seek private law remedies through national legal systems.
- 2.3. However, while the Supplementary Protocol has elaborate and comprehensive provisions implementing the administrative approach, it incorporates only a single article on civil liability which does little more than exhort parties to continue to apply their existing domestic law on the subject or establish rules to deal specifically with the matter. This was not the outcome anticipated when the negotiations for the Supplementary Protocol started. The expectation, primarily of developing countries, was that the prospective protocol would deal essentially with civil liability and set out substantive and procedural rules on liability and redress. However, when the Supplementary Protocol was finalised, it had both the administrative and the civil liability aspects, hence the need for the assessment on the implication of the administrative part of the protocol in South Africa.
- 2.4. In light of the above, the Supplementary Protocol, among other things, (i) has a legally binding provision on civil liability with an in-built review mechanism that could provide for the potential further development of international civil liability rules and procedures; (ii) includes the concept of "sufficient likelihood of damage" which allows Parties to take preventive measures to avoid such damage thus may entail that Parties to the Supplementary Protocol can require the person in direct or indirect control of the living modified organism (LMO) to take response measures.
- 2.5. Parties can also take such response measures through a competent authority and recover the expenses from the operator and (iii) enshrines the right of Parties to provide for financial security in their domestic law. Financial

security is important to ensure that, if for any reason the responsible party cannot pay for the damage caused by an LMO, there will be some means available to do so.

- 2.6. This assessment will therefore consider the potential impacts of South Africa ratifying the Supplementary Protocol, taking into account the country's trade policies and markets as they relate to the transboundary movement of GMOs, the availability of appropriate mechanisms for financial security and modalities to compensate for biodiversity damage caused by LMOs as well as appropriate entities that would provide such financial security.

3. OBJECTIVES

The objectives of this project are to:

- 3.1. Assess the environmental, economic and social impacts of ratifying the supplementary protocol, in South Africa;
- 3.2. identify, determine and recommend different modalities of financial security mechanisms; and
- 3.3. Identify and recommend appropriate entities to provide financial security.

- 4.3 Conduct an assessment of potential environmental and socio-economic impacts of ratifying the Supplementary Protocol in South Africa;
- 4.4 Convene a national stakeholder consultation workshop to facilitate exchange of views and information;
- 4.5 Review the provisions of the World Trade Organisation Agreement on the Application of Sanitary and Phytosanitary Measures (WTO-SPS Agreement) and South African trade policies in relation to the trans boundary movement of Genetically Modified Organisms (GMOs) and identify any trade implication on the implementation of the Supplementary Protocol given South Africa's position of a developer and a trader on GMOs;
- 4.6 Assess and make projections of the competitiveness of South Africa's domestic, export and import markets beyond the ratification of the Supplementary Protocol;
- 4.7 Undertake an assessment and make recommendations on the modalities for the operationalisation of Article 10 of the Supplementary Protocol on financial security in South Africa, including modalities of financial security mechanisms; the environmental, economic and social impacts of such mechanisms, and identification and recommendations of appropriate entities to provide financial security.

- 4.8 Develop a report on the outcomes of 4.1 to 4.7, which includes recommendations to inform the ratification process of the Supplementary Protocol.
