PART E

TERMS OF REFERENCE & PROJECT BRIEF

1. INTRODUCTION

The IPP Office (IPPO) is mandated to undertake the procurement of energy on behalf of the Department of Energy and Electricity (DoEE), previously the Department of Mineral Resources and Energy (DMRE). As such, it is the IPPO's responsibility to prepare procurement documentation and run the procurement processes to ultimately select and appoint successful bidders. These bidders (independent power producers [IPPs]) are responsible to construct, operate and maintain independent power plants providing much-needed power to the South African grid.

2. BACKGROUND

To meet the requirement to procure 3000 MW of new generation electricity capacity aligned to the Integrated Resource Plan (IRP) and as set out in the Determination published by the Minister of Mineral Resource and Energy ("DMRE") in 2020, the IPPO as the mandated Procurer has embarked on a Gas Independent Power Producer Procurement Programme ("GIPPPP"). The GIPPPP is anticipating the establishment of new gas-fired generation facilities that will utilise gas supplied via a value chain that can include amongst others imported LNG, regasification, or gas pipeline infrastructure.

The DMRE released the first Request for Proposal (RFP) in December 2023 for 2000MW on a site agnostic basis and is currently in the process of conceptualization and developing a procurement process for a further 1000 MW dedicated to the Port of Ngqura in the Eastern Cape. In parallel, Eskom has its own gas programme to procure 3000 MW at Richards Bay. Therefore, the country has a total of 6000 MW of gas procurement to be added to the energy mix soon. The development of the GIPPPP will consider the overall national plans for the country.

The drafts of the 2023 IRP and Gas Master Plan released in 2024 will once finalised, guide further requirements for gas in the South African economy and energy mix.

3. PURPOSE

To support this initiative, the Department and IPPO have appointed a team of legal, financial and technical transaction advisors to assist in developing the procurement documentation. As part of this process, the requirement of an advisory firm **specialising in gas/ LNG value chains** has been identified. The gas specialist advisory firm will work closely with the team of Transaction Advisors to assist and to provide advisory services to the Department and IPPO on the development of the GASIPPPP in South Africa by providing strategic guidance and expertise on all value chain elements to ensure the successful implementation of the GASIPPPP.

4. SCOPE OF WORK

The IPP Office is looking to procure the services of a suitably qualified and experienced specialist gas advisory firm to advise the department on the GASIPPPP in South Africa. The advisory firm has to have international experience specialising in gas and is required to advise and ensure the success of GASIPPPP. Key deliverables will include:

1 As part of the procurement and market engagement process:

- Advise on projected gas volumes required for the respective programmes under the GIPPPP.
- Advise on trends identified in global gas supply markets.
- Advise on the logistics and infrastructure arrangements for gas importation, including LNG terminals, pipelines, and storage facilities that need to be established to fulfil the successful implementation of the GIPPPP.
- Advise on the requirements of gas supply agreements and alignment to Power Purchase Agreements to ensure competitiveness, bankability, acceptability, pricing and contractual terms.
- Review the current risk allocation under the PPA as far as supply chain risks related to gas importation and logistics, financial risks including currency fluctuations and price volatility
- Proposals for any amendments to the risk allocation that will ensure implementation.
- Develop and advise on risk management, contracting strategies for securing gas supplies, including long-term contracts and spot market options and measures to manage identified risks. This should address, among other aspects, gas volumes and the associated load factors that would ensure bankability.
- Assist the appointed team of legal, financial, and technical Transaction Advisors in drafting

comprehensive procurement documents and more specifically the project agreements including strategies to ensure sufficient competition and the bankability of the GASIPPPP.

- Conduct a comprehensive analysis of the implications of the Energy Regulator of South Africa (“NERSA”) Methodology for Gas pricing on the GASIPPPP.
- Provide access to long-term forecast for Gas/LNG prices, to enable benchmarking as may be required and appropriate pricing strategies.
- Advise the Department and IPPO on the implications of Gas/LNG price strategies on GIPPPP’s financial viability and long-term sustainability.

2. Advise on and assist with negotiations of the gas supply agreements of Preferred Bidders selected through the Evaluation Process following Bid Submission:

- Assess and provide detail analysis of Gas Supply Agreements and pricing received from Bidders.
- Assistance in any negotiations required post the appointment of Preferred Bidders.
- Provide input into Benchmarking, Value for Money and contingent liability reports to the Department and the Buyer and the National Treasury

5. PROPOSAL

It is estimated that the duration of the assignment will be for a 36-month period with an option to extend for 12 months.
