APPOINTMENT OF THE PROFESSIONAL SERVICE PROVIDER TO PROVIDE TECHNICAL SUPPORT FOR THE REVIEW AND FINALISATION OF THE DRAFT COMPULSORY NATIONAL NORMS AND STANDARDS FOR REGULATING MUNICIPAL SURCHARGES ON ELECTRICITY SURCHARGE FOR A PERIOD OF TWELVE (12) MONTHS

1. Background

Municipal Surcharges are regulated through the Municipal Fiscal Powers and Functions Act (MFPFA) and Local Government Municipal Systems Act (MSA). Section 75A of MSA empowers municipalities to “levy and recover fees, charges or tariffs in respect of any function or service of the municipality”. Municipalities must also adopt and implement a tariff policy on the levying of fees for municipal services in terms of section 74 of the Systems Act. The tariff policy should then guide the exercise of power given under section 75A. In section 74(2)(f) the Act provides that the tariff policy must reflect at least the following principles:

“(f) Provision may be made in appropriate circumstances for a surcharge on the tariff for a service”.

Section 8 of the MFPFA gives power to the Minister of Finance to prescribe compulsory national norms and standards for imposing “municipal surcharges”. Furthermore, when levying surcharges, municipalities are required in terms of section 9(1) (a) of the MFPFA to comply with any norms and standards contemplated in section 8 of the MFPFA.

The National Treasury’s role is limited to prescribing norms and standards, whereas NERSA’s role is limited to the regulation of prices and tariffs. This means that neither the National Treasury nor NERSA has the authority to approve the imposition of municipal surcharges. To date, the Minister has not prescribed norms and standards for regulating the imposition of municipal surcharges. However, their absence does not restrict a municipality from imposing surcharges. Various stakeholders have raised concerns that the process that has to be followed by municipalities to impose municipal surcharges is not clear. Some municipalities have been legally challenged when they levy surcharges.

The regulations for norms and standards on municipal surcharges have been developed to ensure that they are levied with minimal discrepancies and in a transparent manner. However,

the regulations need to be taken through consultations with the relevant stakeholders, such as SALGA, FFC, DCoG and municipalities; and there is a need for a guidance note or process map that will guide municipalities on how to properly implement the surcharge. The purpose of the terms of reference is to appoint a service provider to support the work that has already been undertaken on developing compulsory national norms and standards for regulating municipal surcharges on electricity.

2. SCOPE OF WORK

The National Treasury has developed draft norms and standards on electricity surcharges and has commenced with the public consultation process. Some comments have been received from various/relevant stakeholders; however, these inputs must be reviewed and addressed to finalise the document. The services of the service provider are required to:

- a) Reviewing and responding to inputs and comments received from key stakeholders and the public consultation processes
- b) Determining maximum municipal surcharge that may be imposed as a ratio, a percentage of the municipal base tariff or a Rand value;
- c) Refining and finalising the draft norms and standards in line with inputs and comments received from consultation processes
- d) Aligning the norms and standards with current sector legislation, regulatory instruments, and tariff-setting methodologies.
- e) Preparing a practical implementation guideline to assist municipalities in implementing the norms and standards. The guideline should clearly indicate the purpose and application of the norms and standards; the methodology for calculating and applying surcharges; data and reporting requirements; roles and responsibilities of municipal officials; and common challenges and recommended practices.

3. SKILLS, EXPERIENCE AND QUALIFICATIONS REQUIRED

The service provider shall possess the following skills:

- a. Ability to assess the financial and economic impact of imposing surcharges on sectors responsible for basic services (electricity), users and projection of revenue collection.
- b. Extensive knowledge of the Municipal Finance environment.

- d. Understanding of sector policies that regulate the provision of basic services, especially in the electricity sector.

However, this contract may require minimal in-person time of the Service Provider at the client's offices at the National Treasury in Pretoria throughout the contract period, estimated at an annual engagement, including the inception meeting.

5. CONTRACT DURATION

The contract duration shall be for a period of twelve (12) months.
