2. Introduction and Background of the project

The Department of Economic Development, Tourism and Environmental Affairs (EDTEA) is legislatively mandated to champion and promote sustainable economic growth in the province of KwaZulu-Natal (KZN).

The Provincial Government of KwaZulu-Natal (KZN) has crafted the Provincial Growth Strategy which is aligned to the National Development Plan (NPD) in charting the course into 2030. The province has identified that the realization of the strategy will work best through the realization of the Provincial Spatial Economic Development Strategy which incorporates the Special Economic Zones (SEZ) programme. The alignment and interpretation of these policies has resulted in the development of Industrial Economic Hubs. The development of industrial economic hubs is considered as a key intervention to foster and enhance higher levels of economic growth in specific sectors of the provincial economy, whilst also serving to address the spatial economic inequalities and to open up economic growth opportunities to neglected parts of the province. Moreover, EDTEA launched the Industrial Economic Hubs initiative to harness and deepen re-industrialization of the provincial economy through integrated stimulation of the manufacturing sector, foster pointed and systematic urbanization and infrastructure development. Regional industrial economic hubs and Special Economic Zones (SEZs) are industrial development instruments being deployed by EDTEA in an attempt to develop a globally sustainable and resilient regional economy in the province. Industrial Economic Hubs have been identified in all district municipalities based on the comparative advantages of each district and in response to the adverse socio-economic condition of unemployment, poverty, inequality and slow economic growth.

The Leather Processing Hub is being carried out as an important and integral part of the industrial economic hubs which are part of the provincial industrial development derived from the provincial Growth and Development strategy which is aligned to the national policies and strategies. UMgungundlovu District has been identified as the host of the Hub to be located at a 13.1 hectare site in Edendale - Pietermaritzburg. The land would be adequate to house a large scale anchor tenant, SMMEs & entrepreneurial leather industry operators, Incubators, along with support services such Leather Tannery, Abattoir, Bank, Canteen etc. The Leather Processing Hub strives to harvest, add value and process communal hides and skins for manufacturing of leather products with the outcome being job creation through maximum utilization of local resources. Hides and skins are a rich source of raw material in South Africa and serve as an important component of the country's leather value chain economies and this includes even the hides from emerging cattle farmers and informal sector as they present a communal resource and valuable commodity which can be processed into tanned leather and supplied for value addition in labour intensive manufacturing sectors like footwear, furniture upholstery, etc. This is a reason why EDTEA has made a concerted effort to provide technical skills development in this sector by training many entrepreneurs and SMMEs in the Hides and Skins Processing as attested by a presence of beneficiaries from all eleven (11) KwaZulu-Natal District Municipalities.

EDTEA is now providing a holistic capacity development intervention and platform to those that have completed the Hides and Skins Processing Training to ensure that Leather Hub Beneficiaries receive practical updated technical skills in Hides and Skins Market Access Programme.

This programme will address the challenge of uncompetitive behaviour and barriers to market entry whilst collaborating with industry stakeholders such as TIKZN (Trade and Investment KwaZulu-Natal), SAFLEC (South African Footwear and Leather Export Council), SEDA (Small Enterprise Development Agency), IThala DFC (Development Finance Corporation), KZNLA (KwaZulu-Natal Livestock Association), FLIC (Footwear and Leather Industry Cluster), KZN DARD (KwaZulu-Natal Department of Agriculture and Rural Development) and DTIC (Department of Trade, Industry and Competition).

Moreover, the initiative will not only enhance their business skills, but will sharpen their competitiveness and empower any other leather processing SMME with relevant tools to access public and private sector markets, raw materials and finance. The full two (2) – weeks training programme will elevate the beneficiaries' productivity practically through the listed capacity building focus:

- 1) Beneficiation training for manufacturing and producing basic essential leather goods
- 2) Design Capabilities, Innovation and Differentiation
- 3) Sustainable Business growth, Costing and Finance Management
- 4) Market Access – domestic, global and international
- 5) Enterprise and Supplier Development, funding tools and support.

The above skills set focus is to assist beneficiaries gain impactful competitive edge, reduce barriers to growth and facilitate market access which will enable them to produce quality and essential leather products/goods, generate income whilst creating jobs opportunities.

Technically, the Hides and Skins Market Access Training Programme is to be undertaken as followings:
