TECHNICAL REQUIREMENTS				
Evaluation Criteria (Technical)				
TENDER TITLE: SUPPLY OF A CONVERTER INTERNALS				
No.	Technical Criteria Description	% Contribution	Proof/Documents to be submitted	Notes
1	Company Experience			
a)	The bidder should have relevant foundry experience. Priority shall be given to bidders with demonstrated experience in the casting of catalyst support grids, division plates, support columns or similar high temperature process equipment. -More than 10 (ten) year's foundry experience - 20% -Less than 10 (ten) year's foundry experience - 0%	20%	The bidder to submit a valid certificate of incorporation and signed reference letter on the referring letter company letterhead.	
2	Technical Specification Compliance to Technical specification			
a)	Technical Specification All bidders must supply detailed Technical data for the converter Internals. The internals should be manufactured from good quality Meehanite suitable for continuous service at temperatures up to 650°C. Detailed technical data to be provided on chemical composition, Mechanical properties, thermal expansion characteristics, and high temperature performance data Technical data for converter internals provided - 30% Techical data for converter internals not provided -0%	30%	Bidder to submit detailed Technical data for the converter internals (chemical, mechanical, thermal and high temperature performance properties)	
3	Material Quality and Compliance			
a)	The bidder should demonstrate appropriate inspection and quality assurance processes. This should include converter internals dimensional checks and quality control checks. - Evidence of manufacturer's quality assurance attached -20% - Evidence of manufacturer's quality assurance not attached -20%	20%	The bidder to provide evidence of ISO 9000 certification. Bidder to provide evidence of Foundry QA and inspection procedures.	
4	Reliability / Methodology			
a)	The tenderer to provide the manufacturing duration, delivery schedule and milestone control for the converter internals (with specific timelines). - Plan for manufacture and delivery of converter internals provided -20% - Plan for manufacture and delivery of converter internals not provided -20%	20%	The bidder to provide converter internals manufacturing and delivery schedule	
5	Warranty and after Sales support			
a)	The tenderer to provide warranty and after sales support - After sales support provided -10 % - No after sales provided - 10%	10%		
Total Technical Score:		100%		
NOTE: Minimum score for consideration is 70 out of 100 %				
ADDITIONAL CRITERIA **				
1	Incomplete priced Bill of Quantities (e.g. omission of unit rate/price etc.)
