	<u>Matt coated paper</u> Matt paper is the opposite to gloss – it is coated with a matt finish to produce a paper that isn't shiny, preventing glare. This type of paper is perfect for reports, flyers and leaflets. <u>Recycled paper</u> Made from re-used paper products, recycled paper is perfect for those who are trying to reduce their environmental impact. It can be used for most documents including reports, memo paper and forms. <u>Bond paper</u> This type of paper is stronger and more durable than the average sheet of paper. It's perfect for letterheads, typed reports and envelopes. <u>Silk coated paper</u> The interim between gloss and matt, silk coated paper has a smooth silky coating, leaving it smooth to the touch but without the shine of glass paper. This type of paper can be used for many things such as magazines, books and catalogues. <u>Watermarked paper</u> Used in high quality paper watermarked paper give a feel of luxury and high quality. To create its desired effect an impression is pressed into the paper by attaching a wire pattern. This type of paper is commonly used as a security feature for important documents, including exam certificates.	Yes	No
