CATEGORY B	Capture and remove goats	
CATEGORY C	Capture and remove sheep	
CATEGORY D	Capture and remove horses	

3. BACKGROUND

The aim of the quotation is to appoint a service provider (livestock farming company) to remove surplus animals from City of Tshwane animal farm. The company must also provide the City with a price, which will cover the capturing costs of these surplus animals. The rationale behind this request is that surplus animals which are more than the carrying capacity in one of the City's animal farm (as determined by the veterinarian working in consultation with the City of Tshwane and may transmit diseases amongst each other if appropriate numbers are not kept within the available carrying capacity). Therefore, the bidder must make an offer to buy different species of animals with the understanding that they will capture and remove the animals themselves, following procedures that are approved by the City.

The tender aims to achieve, amongst others the following requirements:

- To allow new breeding to take place within young offspring.
- To stay within the vegetation monitoring protocol and sustainable utilisation of the animal farm grazing pastures.
- To prevent possible inbreeding and crossbreeding in the livestock population within the farm
- To provide additional income for animal's caring needs.

It should be noted that, the City of Tshwane's resort staff members conduct annual census to update all the animal registers (biological assets), as required by the Auditor-General. The animal numbers are then processed according to the farm management requirements to meet sustainable carrying capacities for the applicable pasture management conditions. Surplus animals are determined and must be removed.

4. PROJECT SCOPE

Only livestock farmers can apply for the quotation as they are best equipped and can comply with the legislation requirements to remove surplus animals.

The bidder must provide the removal costs and offer purchase prices for these animals. The City will not be liable for any losses or damages experienced by the contractor during animal removal and delivering operations. The bidder will be liable for any incorrect handling that may lead to any killing or injuries that may occur.

The following should be taken into consideration by the bidder.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
