1. Introduction

The Tshwane Automotive Special Economic Zone (TASEZ) is co-owned by the Department of Trade, Industry and Competition (the DTIC), the Gauteng Provincial Government (GPG) and the City of Tshwane (CoT)

TASEZ is registered in terms of the Companies Act No 71 of 2008 and it is the Operator of the Tshwane Automotive Special Economic Zone in terms of the Special Economic Zones Act 16 of 2014. TASEZ is situated in the east of Pretoria City in Silverton. It aims to offer a diversity of appropriate land uses and other economic activities.

2. Invitation to submit a Proposal INVITATION TO SUBMIT A PROPOSAL

TASEZ hereby invites proposals from suitably qualified Bidders for performing an Economic Impact Assessment for the Tshwane Automotive Special Economic Zone based on current and future projected impact of the zone whilst also evaluating the TASEZ Annual Performance Indicators to assess relevance of these indicators against the objectives of Special Economic Zones and the strategic objectives of its shareholders.

3. Scope of Work

As a newly established Zone the TASEZ requires a qualified and experienced Service Provider to perform an Economic Impact Assessment. The need for an EIA is premised on the TASEZ being funded by government to implement and manage this newly established Economic Zone, primarily focusing on the automotive and allied sectors and hence the TASEZ requires to:

- 3.1. Assess the existing impact the zone is achieving during the first phase of construction
- 3.2. Project the future economic impact of the zone once fully operational
- 3.3. Provide funders and other potential investors with a sound third party view as to the impact of the zone, to ultimately assist the TASEZ to use such data to strengthen its business case and value proposition
- 3.4. Evaluation of the TASEZ performance to date against the approved Strategic and Annual Performance Plan Indicators to assess areas of strength and areas of improvement required in terms of our performance and in terms of the TASEZ strategic direction and key Performance Indicators of TASEZ in line with our 3 Shareholders Goals and Objectives.
- 3.5. To assess the economic impact both in the operational phase and construction phase for the establishment of two additional phases (Phase 2 and Phase 3)

- 3.6.** An economic impact is viewed as a study that reflects on the macro-level effect on economic variables produced by a decision, event, action and/or policy. Variables that are usually used as indicators of economic conditions, and hence, used as measures of economic impacts, include GDP, production, employment, and income (direct, indirect and induced).
- 3.7.** The EIA must cover in macro terms an overview of the following:
- 3.7.1.** The international economic scene and its impacts on the broader economy and the auto sector in particular with some indicative forecasts in respect of regional geographic growth anticipated.
 - 3.7.2.** The international auto sector and South Africa's position in comparison to it and key export markets. With specific emphasis on any visible growth or decline in market share based on the previous 5 years versus Year-to-date performance of the automotive sector. (2021/2022) The reasons for such should be explained.
 - 3.7.3.** A macro comparative analysis of the local auto sector in comparison with developments in BRICS in particular, as well as key emerging auto sector competitors in the African continent (eg Nigeria).
 - 3.7.4.** The South African auto sector's contribution to exports and GDP and jobs in the country.
 - 3.7.5.** In comparison, the Gauteng Province's and the City of Tshwane auto sector's contribution to GDP, exports and jobs.
 - 3.7.6.** The service provider must furthermore have a comprehensive grasp of the dtic's Industrial Policy Action Plan (IPAP), the National Development Plan (NDP), as well as of the auto sector in Gauteng in particular. A detail analysis of the auto sector's role from OEM level through to Tier 3 (backward and forward linkages) in the province would be a specific requirement for inclusion.
- 3.8. Assess and conduct household surveys on the current socio-economic circumstances** by studying the demographics, social, and economic characteristics of the zone and surrounding ward, and **estimate future growth trends** using statistical techniques applied to the current, historic trends in GDP and employment. The surrounding wards consist of:
- 3.8.1.** Ward 38 – Mamelodi Sun Valley (Extension 13 and 14); Ward 41 – Bellievue, Meyerspark, Murrayfield, Salieshoek, Silverton and Val de Grace; Ward 43 – Disptach, Eersterust, Silverton (North of Pretoria Avenue) Silvertonedale and Waltloo; Ward 67 – Mamelodi, **Ward 86 – Nellmapius, Samcor Park, Willow Brase and Willow Park and Willow Park Manor;** (Ward in which the SEZ is established) Ward 28; Areas: Mamelodi West areas, D2, D3, Moretele View and Buffer Zone, Ward 15; Areas: Nellmapius ext. 6, ext. 7, and ext. 8, Ikageng and Buffer Zone

Ward 18; Areas: Mamelodi East, Khutsong extensions, Mamelodi Gardens, Section 14, 15, 16, 17 and 18 and, Ward 06; Areas: Mamelodi West areas C2, D1, D4 and D5.

3.9. The EIA must assess and **analyze the SEZ** in the context of the **SEZ Act** "Purpose of and SEZ" and the **Gauteng province's multi-pillars** of the Transformation, Modernisation and Re-industrialization (TMR) policy.

3.10. This EIA needs to serve the role of a value proposition as the TASEZ needs to also attract investments (Public and Private Sector Investment) into the zone by expanding the zone which is a strategic infrastructure project that must contributed significantly to the global competitiveness of the South African automotive industry. Hence a cost benefits analysis must be conducted that takes into account the following aspects

3.10.1. Financial Analysis

- investment costs both by the Investors and Government
- operating costs
- operating revenues

3.10.2. Economic Analysis

- Utilize conversion factors in the determination of shadow prices. The choice of conversion factor for each line item must be properly substantiated.
- Positive and negative externalities must be considered.
- The rationale for the choice of methodology for the determination of the social discount rate must be provided

3.10.3. Risk Assessment

- Project risk analysis using sensitivity analysis.
- At a minimum, the critical variables in conducting the sensitivity are investment costs and sales.
- Probability distributions of the critical variables must be utilized in the assessment of project risk.

3.11. For the EIA process, the TASEZ will assist (to the extent possible and reasonable) the appointed Service Provider with all the required information, such as the annual performance plan, quarterly reports, project performance results and the final annual financial statements (AFS) that would enable the undertaking of such a study. **It must be noted that such information and any subsequent studies being undertaken will be and remain the proprietary information of the TASEZ and will be governed by strict non-disclosure conditions.**

3.12. The selected service provider would still need to conduct it's own surveys to measure the extent of economic linkages between local firms/investors within the Zone, surrounding households and the TASEZ.

3.13. The **Final Deliverables must be a report that** includes:

3.13.1. The methodology used.

3.13.2. A Macro Economic Overview (Outlined in Section 3 clause 3.7)

3.13.3. Survey results; (Investor and Household)

3.13.4. Cost benefit analysis results;

3.13.5. Economic impact assessment results;

3.13.6. The data sources/key assumptions used; and

3.13.7. Results and recommendations.

3.14. Final submission of the must be made in the form of:

3.14.1. A narrative word document (Word and PDF version to be available).

3.14.2. Detailed Power Point Presentation

3.14.3. Summative Power Point Presentation

3.15. The use of contextual graphics, charts and comparative tables is highly encouraged. All graphics and photos must be in colour.

3.16. It is anticipated that the EIA must be presented by the successful bidder for approval at five levels within TASEZ (Project level, EXCO, Social and Ethics Sub-Committee, Audit & Risk Sub-Committee and Board), hence the bidder will need to make provision for such reviews.

23. SBD 9 Form

Certificate of Independent Bid Determination

1. This Standard Bidding Document (SBD) must form part of all bids¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a per se prohibition meaning that it cannot be justified under any grounds.
3. Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - 3.1. disregard the bid of any Bidder if that Bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - 3.2. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
4. This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
