7. TERMS OF REFERENCE: APPOINTMENT OF A SERVICE PROVIDER FOR ENHANCEMENTS, SUPPORT AND MAINTENANCE OF THE ENFORCER SYSTEM

7.1 Introduction

The Cross-Border Road Transport Agency (C-BRTA) was established by the Cross-Border Road Transport Act 4 of 1998 as amended, to provide advice, regulation, facilitation and law enforcement in respect of commercial cross-border road transport. The Act gives the C-BRTA mandate to regulate access to the market by commercial road transport freight and passenger operators by issuing permits.

The C-BRTA is further mandated to enforce the provisions of C-BRTA Act, through the law enforcement function, to ensure that permit holders operate within the parameters of their permit conditions, and monitor the carriers through inspections, to ensure that they operate within the prescribed legal parameters, and initiate prosecution process where there is non-compliance.

It is from this background that the Enforcer system was developed to support the operational activities of the law enforcement functions, including but not limited to, recording of the inspections, management of notices, recovery of fines issued to offenders and statistical reports. The information recorded in the system further enables the Profiling Unit to provide the Regulatory Committee reports which contains law enforcement information in support of the Board and Regulatory Committee in performing their functions.

7.2 Background

The Enforcer system is currently hosted in-house at the C-BRTA data centre situated at the head office in Centurion Pretoria. The system runs on Oracle 11g database and was developed using .NET development tools. The system is built on a 2-tier computing architecture.

The Enforcer system currently supports the following modules:

7.2.1 Issuing of Inspection books.

This module manages the reception of road traffic offenses books and allocation of road traffic offenses books to inspectors, also re-issuing and editing of books.

7.2.2 Issuing of Finance books

This module manages the reception of road traffic offenses books and allocation of Finance books.

7.3 Issuing of Notices and Court Summons (J14) to Offenders

- This information is uploaded from the finance database.

7.5 Managing Vehicle Accident History

This module tracks and manages the vehicles involved in accidents.

7.6 Investigation of Cases and Complaints

This module manages the receipt and investigation of complaints, and ensures feedback is sent to the complainant.

7.7 Reporting

	(S)trategic	Technology that has been selected as strategic to C-BRTA – awaiting opportunity to implement – will be used for future solutions
Standard	STD Standard	The standard technology adopted by C-BRTA proposals.
	(M)ainstream	Technology that C-BRTA is “living with” for at least the medium-term.
Non-Standard	(T)actical	A tactical concession made for a technology product that must be accompanied with a longer-term solution that fits the architecture – Short term solution – replacement or retirement included in plan.
	(R)ing-fenced	Technology granted for use in very specific situations e.g. the platform of choice may be Microsoft Windows, but a niche system has been purchased for standalone usage, hence the

		concession – not to be seen as an acceptable alternative to be used for other solutions.
	(C) ontained	Usage is contained, and the product will be retired within 2 years, no further acquisition is allowed – Replacement plans in place/progress
	(Ret) ired	The product is currently being used but will be retired within a year – Replacement/Retirement projects have been initiated
	(Pro) hibited	The product is not allowed to be used at all
