- Revised Tender Closing Date

Closing Date	Revised Closing date
18 September 2026 at 10H00	9 October 2026 at 10H00

Question and answers:

QUESTIONS	ANSWERS
Site survey/ Site visit	A site survey/visit will be held at Matla Power Station on 1 October 2026 covering the areas identified in the RFI documentation. The survey is open to all registered respondents on the same dates and

	over the same areas. Respondents intending to attend are to register with the procurement practitioner, providing attendee names and identification details in advance for access clearance. Attendees must comply with Matla Power Station safety requirements, including site safety induction (08:00 am on 1 October 2026) and the required personal protective equipment.
Existing telephone system	This RFI concerns a private 5G network. The supporting network infrastructure would be established as part of the proposed solution and is to be defined by the respondent. Respondents are to assume that the solution may not make use of, or connect into, Eskom's existing IT or OT network infrastructure. Any proposed interface to an existing Eskom network is to be identified in the response.
Site layout and coverage data	The coverage areas are defined in the RFI documentation issued on the Tender Bulletin and the associated link is accessible. Respondents experiencing difficulty accessing it are to confirm in writing so that it can be addressed for all respondents.
