

TRANSFORMER AND SWITCHGEAR SERVICES

Scope of work – Supply and Delivery of Current Transformers

The scope of work covers the supply (incl. design, manufacture, testing, packaging) and delivery of Oil immersed Current Transformers (OICT) and Interposing Current Transformers (Din rail mount in transformer marshalling kiosks) to the Purchaser's premises in Rosherville for a period of 5 years. The current transformers will be purchased for transformer repair projects on an "as-and-when-required" basis. The contract does not guarantee that any specific quantity of current transformers will be bought over the period of the contract. The scope includes making available and providing technical expertise and support with regards to the incorporation and use of the components that are supplied to the Purchaser under this contract. The general use of such expertise will be deemed to be included in the prices quoted for the items in the schedule.

Delivery requirements

Current transformers must be delivered to T&SS Receipt and Dispatch premises in Lower Germiston Road, Transformer and Switchgear services, Bushings and CTs department.

Current transformers must be protected against damage, moisture and dirt.

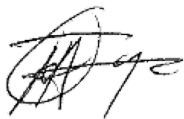

Offloading facilities and labour will be provided by the purchaser.

Technical specifications

All specifications (incl. dimensions and electrical properties) will be supplied to the to the successful bidder/s prior to order placement.
