

Record of Addenda to Tender Documents

This schedule as submitted confirms that the following communications received from the *Employer* before the submission of this tender offer, amending the tender documents, have been taken into account in this specific tender offer:

	Date	Tenderer's question	TNPA's response
1	07 November 2022	I just want to check if any addendums have been place on the porthole for this contract? We don't see any and are concerned about the special material, bitumen.	Escalation for bitumen will be treated under Clause X1 of NEC ECC. Base date is Sept 2022. It will be linked to the Index for Civil Engineering Material – Roads, refurbishment. Index prepared by Statistics South Africa – Statistical Release P0151.1 (Construction Materials Price Indices), Table 6. Clause X1 will be added to the Contract. Non adjustable is 0.15.
2	08 November 2022	At the tender clarification meeting it was noted that the brick paving would be quantified and a revised bill would be sent. Do you know if and when this will happen and, Will there be an extension to the closing time of the tender?	The brick paving will be removed by TNPA's existing road cleaning contract. The appointed Contractor would not be required to remove the paving.
3	09 November 2022	Could you kindly assist on some clarification as to the meaning of the following 1. Valid Certificate of competency: Milling machine. 2. Valid Certificate of competency: Spreader/ Paver. 3. Valid Certificate of competency: Compactor(s).	It is the certificates of the operators of the different machines (milling machine, spreader/ paver, compactor(s)) indicating they are trained to operate the respective machines.
4	18 November 2022	Will escalation apply to this contract and what is the base month?	Escalation for bitumen will be treated under Clause X1 of NEC ECC. Base date is Sept 2022. It will be linked to the Index for Civil Engineering Material – Roads, refurbishment. Index prepared by Statistics South Africa – Statistical Release P0151.1

			(Construction Materials Price Indices), Table 6. Clause X1 will be added to the Contract. Non adjustable is 0.15.
5	18 November 2022	Good afternoon. Will there still be an addendum? We are still waiting for feedback from the site meeting.	See attached addendum.
6	18 November 2022	Will bitumen be a special material? With base price and rise and fall to apply? This is a very important question, because of the nature of this project.	Escalation for bitumen will be treated under Clause X1 of NEC ECC. Base date is Sept 2022. It will be linked to the Index for Civil Engineering Material – Roads, refurbishment. Index prepared by Statistics South Africa – Statistical Release P0151.1 (Construction Materials Price Indices), Table 6. Clause X1 will be added to the Contract. Non adjustable is 0.15.
7	18 November 2022	We still require clarity about the following: What is the budget value of this contract? If the grading is a CIDB level 7, that goes up to 50million can you be more specific for insurance purposes.	Budget value cannot be shared. Your tendered value and the CIDB grading should guide you.
8	18 November 2022	Good day can we please have some clarity on 1. Valid Certificate of competency: Milling machine. 2. Valid Certificate of competency: Spreader/ Paver. 3. Valid Certificate of competency: Compactor(s). does this refer to the operators or plant itself	It is the certificates of the operators of the different machines (milling machine, spreader/ paver, compactor(s)) indicating they are trained to operate the respective machines.
9	18 November 2022	Could you please assist by informing us on the current/existing road width, for the road which requires the said repairs, under the abovementioned tender?	Working from North to South through the site: Sections located in the first 1.9km of the road is 8.2m wide. Sections located in the last 0.85 km is 12m wide.

10	18 November 2022	Approximate location of the sections that need to be repaired	Kindly see attached approximate location of the sections (indicated in yellow) of the road that need to be repaired. Please note that these sections might change, depending on the condition of the road. Any change in sections will not affect the overall contract quantities.
10			
11	18 November 2022	Can the prime coat be replaced a tack coat, due to the time it takes for the prime coat to break?	The prime coat can be replaced with a tack coat. See attached updated BOQ.

In addition to the above responses, please find the amended Works information, BOQ and Contract Data.
