1. BACKGROUND

The Department of Tourism (DT) commenced with the Women in Tourism (WiT) Programme in 2013 as a platform to drive initiatives that support the development and empowerment of women in the tourism sector. This platform recognised the challenges faced by women entrepreneurs who are often found at the bottom end of the tourism economic value chain, and identified interventions that will assist in realising the WiT agenda. Its main focus areas included training on personal development, supporting women to develop a competitive advantage in their businesses and provision of capacity building initiatives.

The WiT platform is meant to integrate women from the different backgrounds within the sector and to ensure that they converge on a set of common goals and interests within the industry. The WiT initiative serves as a mechanism to drive programmes to support the development and empowerment of women in the tourism and hospitality sector as well as provide networking opportunities.

2. UNWTO WOMEN EMPOWERMENT IN TOURISM (WEiT) PROGRAMME

The UNWTO Women in Tourism Empowerment Programme (WiTEP) sets a precedent for establishing tourism as a tool for the promotion of gender equality and women's empowerment, using gender analysis and gender training to tackle inequality and gender-based discrimination in the tourism industry.

The overall goal of the project is to promote women's economic empowerment in tourism through partnerships with NGOs, DT, hotel chains and other sector-related stakeholders. This will involve improving employment/entrepreneurship opportunities for women by facilitating their access to jobs and/or participation in supply-chains, and by creating possibilities for career advancement.

In 2010, the United Nations World Tourism Organisation (UNWTO) released the Global Report on Women in Tourism, highlighting the value of the sector as an engine for economic development through foreign exchange earnings and the creation of direct and indirect employment. This report further elucidates that this value does not translate into an equitable distribution of economic impacts between men and women in the sector, especially in the developing economies. The report also indicated that tourism growth presents challenges and opportunities for gender equality and women's empowerment. With regards to opportunities, Tourism presents a number of income generating activities for women and the jobs are flexible and are able to be carried out at different locations, home, community and the workplace. However, women are faced with challenges of concentration in the low status, low paid, and precarious jobs in the sector. The Global Report On Women, 2nd edition of the study was released by the UNWTO in 2019.

The Global Report on Women in Tourism – Second Edition, provides concrete steps in the Action Plan.

The six areas to cover is as follows:

i. Employment:

- Address social protection and unpaid work for women in tourism.
- Systematically address the sexual harassment of women workers in the tourism sector, as well as issues of harassment in tourism communities against community members and travellers.
- Develop and institutionalize gender equality strategies for the tourism sector. V. Challenge gender-stereotypes in tourism sub-occupations.

ii. Entrepreneurship:

- Work to ensure that women's tourism businesses can become formalized, if they wish to be, and contribute to women's financial inclusion.
- Expand and diversify women's market access and fair trade for their tourism products and services.
- Support women to expand and diversify their tourism products and services.
- Introduce measures to improve women's work-life balance in tourism and encourage an equal division of unpaid care work in tourism communities.
- Expand women's access to digital technologies, including digital tourism platforms.

iii. Leadership, Policy and Decision-Making:

- Work towards gender balance in senior management of tourism companies.
- Address the lack of high-level women's leadership in decision-making spaces in the private sector, public sector tourism bodies and agencies.
- Ensure ILO policies on maternity and care responsibilities are respected.
- Actively support women's representation and leadership in traditional leadership structures (trade unions).

iv. Education and Training:

- Develop training programmes for women in tourism, including training on soft skills, networking and high-level training for career progression.
- Provide targeted training for women to ensure that they can use digital technologies to innovate through digital technologies in tourism.
- Provide gender equality training for tourism policy-makers, managers and employees.
- Encourage the participation of female students and graduates in tourism studies and qualifications.

v. Community and civil society:

- Facilitate women's voice in community and household decision-making.
- Ensure gender equality and human rights commitments at the national level are met and implemented effectively.
- Support women's tourism networks, NGOs and tourism cooperatives to actively work towards women's empowerment in the sector.

vi. Measurement for better policies:

- In respect of the above, the pilot seeks to establish a baseline that will inform policy and supporting strategies/interventions going forward.

The COVID-19 pandemic has had a profound impact on the global tourism sector. Tourism in South Africa as is the case in the global economy has been thrown into crisis by the COVID-19 pandemic, putting thousands of businesses and jobs at risk. The priority for the sector is to resume operations as early as it is safe to do so, but re-opening will just be the start of a difficult recovery. The situation requires an urgent response, but also a recognition of the constraints that hamper South Africa's tourism development. Tourism recovery depends on early, responsible resumption coupled with a compelling and carefully executed strategy for re-entry. The outlook is fluid and necessitates a balanced set of interventions that consider both supply and demand-side support in line with a gradual easing of internal restrictions. Opportunities to strengthen sector enablement are also apparent. Three strategic themes are central to South Africa's recovery: Re-Igniting Demand, Rejuvenating Supply and Strengthening Enabling Capability.

The Department has developed a new approach to the provision of support to Small, Micro to Medium Enterprises (SMMEs) in tourism. The objective of the Department's Enterprise Development and Support Programme is to provide development support to SMMEs in order to improve their sustainability in the tourism sector. The key focus areas in the Enterprise Development Support Programme include the following:

- Provide non-financial business support to SMMEs.
- Establishment of Tourism business incubators.
- Conduct need-based business management.

The purpose of this project is to implement a programme that will provide business management training to women-owned enterprises in the tourism sector for a period of one year. Given the negative impact of COVID-19 pandemic on the operation of SMMEs, the training will also include business recovery awareness and business risk management. The outcome of the training includes business plans; marketing plans; financial and recovery strategies for each of the participating enterprises. The key deliverables are articulated in detail below. The project will cover SMMEs across the country as illustrated in Figure 1:

ANNEXURE G: SBD 9

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
