

Supply and delivery of Sodium Hydroxide Solution				
No.	Mandatory Requirements		Returnable Document	
1	Technical Data sheets		Bidder to submit SDS	
2	Certificate of Product Analysis indicating adherence to parameters as stated on SOW (section 5)		Bidder to submit certificate of analysis	
TECHNICAL REQUIREMENTS				
Technical Evaluation Criteria				
No.	Functionality Criteria Description	Weight	Proof of returnable documents	Notes
1	Reliability - Supplier reliability to complete the project safely in time, quality and budget			
a)	Suitability of supplier to deliver on time as per SOW section 1.4.1 requirement. Supplier must have 60 tons buffer stock (safety stock) available. Delivery of sodium hydroxide within 12 Hours (15) Delivery of sodium hydroxide within 24 Hours (10) Delivery of sodium hydroxide within 48 Hours (5)	15%	Submit letter confirming lead times	Bidders who fail to submit lead times will score zero (0)
b)	Company experience related to the scope of work for supplying and delivery of sodium hydroxide above Five (5) Years of experience (20) Three (3) to Five (5) Years of experience (10) Two (2) Years of experience (5)	20%	Bidders are to provide detailed reference letters signed by the referring company on referring company's letterhead indicating the duration of the contracts	Bidders who fail to meet minimum requirement will score zero (0)
c)	Supplier to submit proof of ISO 9001 and ISO 14001 Scoring: Not submitted proof of ISO certificates (0) Submitted proof both certificates ISO 14001 and ISO 9001 (15)	15%	Bidder to submit proof of ISO certificates	Bidders who fail to submit both certificates will score zero (0)
2	Lab tests			
a)	Bidders must submit 10kg's of a sodium hydroxide sample for Foskor to analyse as per the specification (Refer to SOW Section 1.4) Scoring: Lab test as per SOW section 1.4 (45) Lab test not meeting all SOW requirement as per section 1.4) (0)	45%	Bidder to meet all the specification requirements as per SOW	Failure for the bidder to meet all the specifications as per SOW will score zero (0)
b)	Supplier plant site visit Scoring: No Proof of plant facility (0) Proof of plant facility (5)	5%	The supplier must show physical proof of manufacturing capacity in line with Foscors demand of 300 tons of Sodium Hydroxide every 6 weeks. Submit lease agreement of facility if necessary.	
Total Technical Evaluation Criteria Score:		100%		
Minimum technical evaluation threshold		80%
