6. CRITICAL MILESTONES.

The following seven critical milestones/phases as stipulated in the Department of Rural Development and Land Reform Spatial Development Framework Guidelines, Mbizana Spatial Planning and Land Use Management Act, SPLUMA and National SDF Guidelines reviewed in terms of SPLUMA shall be achieved by each SDF:

- Phase 1: Start Up,
- Phase 2: Issues and Vision,
- Phase 3: Spatial Analysis and Synthesis,
- Phase 4: The Draft SDF Document,
- Phase 5: Achieving Support for the Draft SDF,
- Phase 6: Finalization and Approval,
- Phase 7: Implementation.

Details pertaining to the relevant deliverables for each milestone are contained in the National SDF SPLUMA guidelines document. Each service provider is expected to consult the guideline document while preparing the proposals and when executing the project and in line with the ILUS, LUMS.

7. OUTCOMES AND DELIVERABLES.

The Reviewed SDF should respond to the government strategic priorities (NSDP, EC PGDS, and PSEDS). It shall demonstrate how job creation in the municipality facilitated through spatial planning.

The end product must contribute positively towards local economic development, sustainable livelihoods in rural areas and poverty alleviation.

The Reviewed SDF must be both a vertical and a horizontal alignment tool for government-wide activities, plans, policies and legislation. It must be a tool to facilitate structured implementation of programmes, and be an effective decision-making instrument.

Improved Comprehensive National SDF guidelines are expected out of the process of formulating each of the SDF:

All objectives of the project as stipulated in this Terms of Reference should be met. A document with clear deliverables is expected, and should be moulded around what is stipulated under. The SDF documents should indicate all cross-broader issues, challenges and alignment of programmes shared with neighbouring municipalities and provinces.

Submissions should be in the form of both hard and electronic versions of the SDF. All spatial information collected should be submitted in GIS capable file format (shape-files, layer files, mxd files) for use in a GIS environment. The shape-files must have clear attribute information that differentiates each SDF construct and its purpose, for example a service node shape-file should have an attribute called “description” with the value “service node”. The project steering committee (including municipality and DRDLR, COGTA, DISTRICT officials) will comment on the SDF and send them to the service provider for amendment purposes.

It is recommended that more visual representation (maps, graphics and photographs) form the bulk part of the spatial analysis/current reality and the conceptual framework section of the SDF. A text box or other mechanisms may be used to provide an explanation, relevant information or analysis.

Required copies of the SDF document for consultation purposes shall be prepared by the service provider. The copies shall be distributed a week prior to the meeting taking place.

The Service provider would be expected to submit a final consolidated report which consists of:

- SDF textual document including all maps, tables and figures in both hardcopy (printed) and softcopy (electronic as MS word document); A0 Draft SDF Plan, a separate Executive Summary Document and a public participation report.
- All maps contained in SDF textual document as electronic image files (eg. JPEG, windows Bitmap, GIF, etc.);
- All spatial information used to generate the SDF maps in shapefile (GIS Metadata) format together with correct and descriptive attribute information as to what each SDF construct represents.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
