CSD Compliance History Report

To promote administrative compliance, an active supplier's information will be re-verified on a regular basis. The frequency of batch re-verification of a supplier's information differs based on the type of information:

- **CIPC-registered suppliers with an "in business" status and member/ director updates of such suppliers:** Re-verification occurs on a daily basis, if it has not been verified within the last 24 hours.
- **Bank:** The bank account and branch number combination is checked against the bank account codification scheme (CDV check). The bank account and branch number combination is validated each time a bank account is added or updated. The bank account and account holder is verified with SafetyWeb when a bank account is added or updated and the supplier submits the change. The bank account details will also be re-verified if a supplier updates their identifying number on the Supplier Identification screen and it is linked to their bank account at the respective bank. A supplier can manually re-send their bank account details for re-verification by clicking on the "Re-Verify" button on the bank screen in cases where updates to the bank account details were made at the banking institution. This verification against the banks via the SafetyWeb interface can take up to four working days.
- **Tax compliance status:** Re-verification of tax compliance occurs daily for suppliers with a non-compliant tax status, if the tax status was not verified within the last 24 hours; and re-verification of tax compliance occurs every ten working days for suppliers with a compliant tax status – in line with the grace period given by SARS in cases where a supplier's tax status will become non-compliant.
- **Government Employee status per director/member:** Re-verification occurs on a monthly basis.
- **Restricted Supplier:** Re-verification occurs on an ad-hoc basis whenever National Treasury updates the list of restricted suppliers and the CSD restricted supplier master data is updated.
- **Active/Inactive:** A supplier can decide to inactivate the supplier record and will supply an inactive reason. When a supplier is inactive, they will not appear on the search results for organs of state and will not be able to do business with government. They can however, re-activate their account in future.
- **Deleted supplier:** A supplier can decide to delete the supplier record and will supply an deletion reason. When a supplier is deleted, they will not appear on the search results for organs of state and will not be able to do business with government. They can never, re-activate their account in future.
- **Status change date:** For multiple entries, this date appears in a descending order, displaying the most recent date that a change was made for the particular section, in the first row. This therefore means that the very last date in the list of dates would have been the date of the very first status as recorded on the CSD.
- **Director/Member/Owner:** An individual can be a member, director or owner of a company/business.
