THIS ADDENDUM IS TO BE READ IN CONJUNCTION WITH AND SHALL BE DEEMED TO BE PART OF THE RELEVANT CONTRACT DOCUMENT

ADDENDUM NO. 1

BID NUMBER: NRA 2026/0034 (A) AND NRA 2026/0034 (B)

CONTRACT SANRAL	PROJECT DESCRIPTION ROUTINE ROAD MAINTENANCE - CONSTRUCTION
N.002-213-2024/1	FOR THE ROUTINE ROAD MAINTENANCE OF NATIONAL ROUTES N2 SECTION 21X KM 0.00 TO N2 SECTION 22X KM 29.60 AND N2 SECTION 22 KM 0.00 TO N2 SECTION 23 KM 44.78 IN THE HARRY GWALA AND UGU DISTRICT MUNICIPALITIES
N.011-014-2024/1	FOR THE ROUTINE ROAD MAINTENANCE OF NATIONAL ROUTES N11 SECTION 1 FROM BERGVILLE I/C KM 0.00 TO SECTION 4 IN VOLKSRUST KM 48.59 IN THE UTHUKELA DISTRICT MUNICIPALITY AND AMAJUBA DISTRICT MUNICIPALITY

THIS ADDENDUM CONTAINS THE FOLLOWING:

SECTION A: AMENDMENTS TO TENDER DOCUMENT

SECTION B: QUESTIONS & ANSWERS DURING TENDER PERIOD

SECTION B: REVISED TENDER DOCUMENTATION

SECTION A: AMENDMENTS TO THE TENDER DOCUMENTATION

EXTENSION OF CLOSING DATE

1.1. AMENDMENTS TO PART T1 TENDERING NOTICE AND INVITATION TO TENDER PROCEDURES

In Volume 3, Book 1 of 3, the date for tender closure as indicated below:

- a) Amend **COVER PAGE THE CLOSING DATE READS**, “**Wednesday 07 October 2026 at 12:00.**”

The tender closing date is hereby extended to “**Monday 19 October 2026 at 12:00**”.

- b) **SBD1 Form**: Invitation to Bid and Terms and Conditions for Bidding Closing Date: **19 October 2026.**

- c) Amend **PART T1.1 TENDER NOTICE AND INVITATION TO TENDER** as follows:

The closing time for receipt of tenders is “**Monday 19 October 2026 at 12:00**”.

- d) Amend **PART 1.3 TENDER DATA** clause **C2.15** as follows:

The closing time for submission of tender offers is “**19 October 2026**”

- e) Amend **PART 1.3 TENDER DATA** clause **C.3.4.1 of T1.3** as follows:

The closing time for submission of tender offers via live streaming shall be: **12h00 on “Monday 19 October 2026”.**

- f) **AND ANYWHERE ELSE IN THE TENDER DOCUMENT WHERE REFERENCE IS MADE TO THE CLOSING DATE AND TIME.**

SECTION B: QUESTIONS RECEIVED POST CLARIFICATION MEETING

Only questions submitted in writing will be formally answered and become part of the Tender Documents. The questions received in writing from the tenderers up to 30 September 2026, as well as the answers to the questions, are listed in the table below:

QUERY NO.	QUESTION	ANSWER/RESPONSE
1	Following the briefing session, could you please confirm if the following list covers all the required submission documents on white paper and USB? 1. Book 1: Completed forms, returnable and supporting information 2. Book 2: C1.1 Form of Offer 3. Book 3: Documents up to the Scope of Work	Yes, the list below covers the required tender submission documents: 1. Book 1: Completed forms, returnable schedules and supporting information. 2. Book 2: C1.1 – Form of Offer. 3. Book 3: Documents up to and including the Scope of Work. The required documents are to be submitted in hard copy on white paper and electronically on USB, as stipulated in the tender documentation.
2	Following the SANRAL briefing held on 18 September 2026 at 11h00, below is a list of clarification items for formal submission to SANRAL. A. BOOK 1 – RETURNABLES & FUNCTIONALITY 2.1 Submission of Returnables SANRAL indicated that each tender requires a complete Book 1 per Bid Number and full set of returnable documents. 2.2 Functionality – Experience (Form A20, Form B1.2 & Reference Letters) SANRAL advised that: • Current projects may be submitted if supported by an Engineer's Report showing certified expenditure to date, and the completed FORM B1.2 • Take-over certificates are acceptable for completed projects.	2.1 Separate submissions: Yes, NRA 2026/0034(A) and NRA 2026/0034(B) are separate bids. Each tender submission must include a complete Book 1 for the respective Bid Number, including the full set of required returnable documents and supporting information. 2.2 Current vs completed experience: Yes. Ongoing projects may be considered for functionality provided that they comply with the requirements stipulated in the functionality criteria. Current/ongoing projects may be claimed where they have been in execution for more than three years, supported by the award letter, reference letter and fully completed Form B1.2.

	2.3 Scoring Method • Whether SANRAL scores current projects differently from completed projects, and • Whether SANRAL will use the appointment letter or the reference letter to determine the official kilometre length for scoring. 2.4 Key Personnel – Registration vs Experience • Whether the same employee's CV may be used multiple times across the roles of Contracts Manager and Construction Manager (Site Agent). • Whether SANRAL will accept Contracts Managers and Construction Managers who are not professionally registered, but who possess extensive years of experience in Routine Road Maintenance and other relevant civil engineering contracts. This clarification is essential, as many competent RRM personnel have significant experience but do not hold professional registrations. 2.5 Form A19.3 – Access to 7.5% Funds We request confirmation on whether SANRAL prefers: • Bank Rating Letter, • Bank Statement, • Letter of Conduct, or a combination thereof.	A Completion Certificate is not required for such ongoing contracts. Completed projects require an award letter, a completion certificate, a reference letter and Form B1.1. No points are awarded where the required proof is absent. Completed and qualifying ongoing projects are scored using the same kilometre-based formula stated in the Tender Data. 2.3 Kilometre length for scoring: The kilometre length must be verifiable from the award letter/appointment letter and corroborated by the completion certificate and reference letter. SANRAL will verify the official length from the supporting documents; unsupported lengths will not be scored. 2.4 A tenderer may propose personnel The Contracts Manager and Construction Manager (Site Agent) must be separate resources. The same employee may not be submitted for both roles. SANRAL will accept Contracts Managers and Construction Managers who are not professionally registered. However, professional registration forms part of the functionality requirements and the absence of the required registration may therefore affect the tenderer's functionality score. 2.5 Tenderer's Registered Financial Service Provider Letter and Bank Details Tenderers are required to comply fully with the requirements of Form A19 for the relevant options stated. Tenderers must use the generic letter proforma provided in the tender document when obtaining the required confirmation from their Financial Service Provider/financial institution. The proforma must be completed in full and submitted as part of the tender returnables.
--	---	---

2.6 Form A26 – Local Content

We request confirmation on:

- Whether SANRAL will provide a list of applicable local content items,
- Whether this list will appear in Book 1 or directly in the Excel Price Schedule,
- Whether any additional documentation is required to verify compliance with minimum percentages.

2.7 Form B6 – Allowable Percentage

There is inconsistency between **15%** and **20%** stated in the tender documentation. We request confirmation on the correct allowable percentage.

2.8 SAP Ariba Registration

We request clarification on whether SAP Ariba registration is:

- Compulsory at tender stage, or
- Only required upon award.

B. PRICE SCHEDULES – BOQ UNIT OF MEASUREMENT

The following items appear to have incorrect units:

Tender N.002-213-2024/1

- **M161.01(a)** – Should be **litres**, not m³
- **M161.02(a)** – Should be **litres**, not m³
- **M170.03(a) & (b)** – Should be **litres**, not m³
- **M170.04** – Overhaul should be measured in **m³-km**, not m³ or km alone

2.6 Form A26 – Local Content

SANRAL has provided the applicable local content requirements and items in the tender documentation.

Tenderers are required to comply with the requirements of Form A26 and submit any supporting documentation specified therein to demonstrate compliance with the applicable minimum local content requirements

2.7 Form B6 – Allowable Percentage

The correct allowable percentage is 20%. The reference to 15% relates to VAT and does not refer to the allowable percentage.

2.8 SAP Ariba Registration

SAP Ariba registration is not required at tender stage. Registration will only be required post-award

B. PRICE SCHEDULES – BOQ UNIT OF MEASUREMENT

Tender N.002-213-2024/1

- M161.01(a) – Should be litres, not m³
- M161.02(a) – Should be litres, not m³
- M170.03(a) & (b) – Should be litres, not m³
- M170.04 – Overhaul should be measured in m³-km, not m³ or km alone

The errors in the above-mentioned sections of the BOQ, relating to the incorrect units of measure, have been corrected. A revised BOQ has been issued under Addendum 1.

	C. GENERAL 1. Tender Opening Procedure We request confirmation on whether tender openings will be conducted: • via email, • via Microsoft Teams, or • in person.	C. Tender Opening Procedure Tender opening will be conducted via Microsoft Teams. The link will be provided to tenderers who attended the clarification meeting, in accordance with the procedure stipulated in the tender documentation.
3	We are enquiring about the B Forms for bids NRA 2026/0034(A) and 2026/0034(B) that do not appear to be included with the Returnable	The B Forms form part of the Returnable Schedules in Book 1. For NRA 2026/0034(A), Contract N.002-213-2024/1, the Book 1 contains the applicable B Forms, including: • Form B1 – Schedule of Work Experience; • Form B1.1 – Completed Projects; • Form B1.2 – Ongoing Projects; • Form B2 – Schedule of Contractor's Equipment; • Form B4.1 – Construction Manager; • Form B4.2 – Contracts Manager; • Form B5 – Proposed Subcontractors; • Form B6 – Contractor's Establishment on Site and General Obligations; • Form B7 – Schedule of Special Materials; and • Form B8 – Work Plan and Proposed Methodology.
4	I was writing to inform you that the BOQ is locked I can't edit it. I was wondering if you can look into it.	The issue has been rectified, and the revised BOQ has been issued under Addendum 1.
5	We wanted to find out if we are allowed to fill the document (Book 1) electronically or it must be inked?	Tenderers may complete tender document electronically and electronically sign the required documents. There is no requirement for the documents to be completed in ink.
6	We seek clarity on the following aspects of the document that we consider fundamental in preparing a complete tender submission.	

	- Under “Pricing Instructions” in Book 3 of the Tender Document, clause C2.1.8 states “No cross subsidisation of pay items will be allowed”. There is however no definition for cross subsidisation, within an RRM context, in the contract document, FIDIC or Standard Specifications. Could the Employer provide a definition of cross subsidisation with regards to RRM pricing? - Under “Tender Data” in Book 1 of the Tender Document, clause C3.13 “Acceptance of Tender Offer”, the document refers to “market related rates”. When pricing RRM BoQ’s two major aspects of the price calculation are variable, namely Quantity and Distance. - The unit cost per ton to lay 3 tons of asphalt 240 kilometres from the Asphalt Plant is substantially higher than laying 150 tons 5 kilometres from the Plant. Can the Employer provide the average Quantity and Distance that they will be using for each relevant item to calculate its “Market Related Rate”	Pricing Instructions – Clause C2.1.8 SANRAL intention is that no cross-subsidisation of pay items will be permitted. Tenderers are therefore required to price each pay item independently and in accordance with the scope and requirements applicable to that specific item. Accordingly, tenderers may not artificially increase the rate of one pay item to compensate for, or recover costs associated with, another pay item. Each pay item must be fully and appropriately priced based on the work, resources, materials, plant, labour and other costs applicable to that item. The reference to “market related rates” requires tenderers to submit rates that are reasonable and reflective of prevailing market conditions. The Employer acknowledges that quantities and distances may vary in an RRM term contract. Tenderers are therefore required to price the BOQ based on the information provided and the requirements of the tender. The Employer will not provide average quantities and distances for purposes of calculating market-related rates. Tenderers are required to price the BOQ based on the tender information and requirements provided.
7	During our review of the BOQ for this contract N.011-014-2024/1, we identified the following technical errors: M020.09(b) and (c) – cells are locked and cannot be edited. M2400 – Route description reflects N2, which differs from the contract description. M2500 – Route description reflects N2, which differs from the contract description. M3200 – Route description reflects N2, which differs from the contract description.	The following corrections are confirmed for N.011-014-2024/1 and will be corrected by addendum/corrected pricing schedule: M020.09(b) and M020.09(c): The issue has been rectified M2400, M2500 and M3200: The error in Sections 2400, 2500 and M3200 of the BOQ, relating to the incorrect road section references, has been corrected. M6100 and M6200: route-length descriptions must reflect the full relevant N11 section lengths as set out in the Scope of Work/Site Information.

	M6100 and M6200 – The description column does not show the full route length, although the complete distance is correctly reflected under <i>Project Description</i> in Book 3. Kindly review and correct the above items to ensure alignment with the contract documentation and to allow accurate rate entry.	A revised BOQ has been issued under Addendum 1.
8	We request clarification on NRA 2026 /0034 (A) and (B) to be submitted as two separated bids with separate pricing and returnable Or as a combined submission? We are confused since NRA 2026 / 0034 (A) list both contracts while NRA 2026 / 0034 list only one . Please advise on correct scope for each and when will NRA 2026 /0034 (A) be uploaded separately for download	NRA 2026/0034(A) and NRA 2026/0034(B) are two separate bid numbers for two separate contracts. Tenderers must submit: NRA 2026/0034(A): SANRAL N.002-213-2024/1 only: N2 Sections in the Harry Gwala and uGu District Municipalities. NRA 2026/0034(B): SANRAL N.011-014-2024/1 only: N11 Section 1 in the uThukela and Amajuba District Municipalities. Do not submit a combined offer. Form A1 in each Book 1 must identify only the project contained in that bid. The fact that Correspondence No. 1 lists both contracts under the same correspondence document is because the questions and answers apply to both tender invitations; it does not merge the bids.
9	Sect M3200 : The road listed for cleaning does not match the tender description. The BoQ talks to the N2 rather than N11	BOQ – Section 3200 Discrepancy The error in Section 3200 of the BOQ, relating to the incorrect road section references, has been corrected. A revised BOQ has been issued under Addendum 1.
10	I would like to be assisted with the following clarifications. The tender is for grade 8CE which means the maximum tender amount will be R200, 000,000-00, and we are tendering for multiple year(5) project, my question is are you going to take into consideration the final tender offer or you are going to look at the rates only, since the tender offer will be highly above the maximum limit amount for grade 8CE.	Tender amount vs rates only The tender is for a contract period of 60 months. The tender notice requires tenderers to have a minimum CIDB contractor grading designation of 8CE or higher.

	• Functionality , will the company be disqualified if it's submit contracts manager and construction manager without ECSA/SACPCMP registration, or will only lose points for these mentioned categories. • Are we expected to submit our tender with proof of insurance of works or you can also accept the letter of intent from the bank or insurance broker.	The required CIDB Grade 8CE is correct, as this is a five-year term contract and the annualised tender value is considered for purposes of determining the applicable CIDB grading. Accordingly, tender rates only will not be considered in isolation. Tenderers are required to ensure that the Bills of Quantities are fully and correctly priced, as the final tender offer will form part of the tender evaluation. ECSA/SACPCMP registration Professional registration is included as a functionality criterion for both the Construction Manager and Contracts Manager. The functionality criteria allocate additional points for qualifying professional registration. The absence of professional registration therefore affects the functionality score in accordance with the applicable scoring criteria. However, the proposed personnel must also comply with the minimum key-personnel requirements specified in Book 3, including Clause C3.1.17.2. Tenderers must therefore ensure that the proposed Construction Manager and Contracts Manager meet all applicable minimum requirements, irrespective of the functionality points allocated for professional registration Insurance Proof Tenderers are required to submit proof of insurance as part of the tender submission. A letter of intent from the bank or insurance broker confirming the intended insurance cover will also be accepted as instructed under form A8.
11	Good day, please note as above, there is an error on the BOQ, section 3200 referring to incorrect road sections. The section for general mow as below	BOQ – Section 3200 Discrepancy

	M610.01	Initial general mow (non-performance based) (a) Reserve with dual carriageway (i) N11 Section 1, km 0.00 to Section 4, km 48.59		The error in Section 3200 of the BOQ, relating to the incorrect road section references, has been corrected. A revised BOQ has been issued under Addendum 1.
	Then section 3200 Litter			
	M320.01	Initial Clearing of the road reserve (a) N2 Section 27, km 29.80 to N2 Section 29, km 13.00		
	M320.02	General Clearing of the road reserve (c) Rural roads (i) N2 Section 27, km 29.80 to N2 Section 29, km 13.00		

(NO COVER PAGE PLEASE)

BID NUMBER: 2026/0034 (A) AND NRA 2026/0034 (B): ADDENDUM NO.1

CONTRACT SANRAL	PROJECT DESCRIPTION ROUTINE ROAD MAINTENANCE - CONSTRUCTION
N.002-213-2024/1	FOR THE ROUTINE ROAD MAINTENANCE OF NATIONAL ROUTES N2 SECTION 21X KM 0.00 TO N2 SECTION 22X KM 29.60 AND N2 SECTION 22 KM 0.00 TO N2 SECTION 23 KM 44.78 IN THE HARRY GWALA AND UGU DISTRICT MUNICIPALITIES
N.011-014-2024/1	FOR THE ROUTINE ROAD MAINTENANCE OF NATIONAL ROUTES N11 SECTION 1 FROM BERGVILLE I/C KM 0.00 TO SECTION 4 IN VOLKSRUST KM 48.59 IN THE UTHUKELA DISTRICT MUNICIPALITY AND AMAJUBA DISTRICT MUNICIPALITY
