Now Plant Health comes to you

Now Plant Health comes to you

SPECIFICATIONS:

1. Site inspection is compulsory
2. The current branding will have to be removed and this cost should be specified and included in the quote
3. Paint and application method will be specified in the quotation
4. High-quality vinyl materials that can withstand the harsh South African climate, from the scorching sun to the torrential rains have to be used
5. Printers have to be calibrated to produce sharp, high-resolution images
6. Pre-application treatment method should be specified: thorough cleaning process to remove any dirt, grease, or residues
7. Brand of transfer tape has to be specified (strong-grip)
8. Quality Assurance: vehicle will be inspected upon delivery to ensure every inch of the branding meets our stringent quality standards
9. Detailed aftercare instructions to maintain the condition of the branding should be provided - this includes advice on cleaning methods and how to preserve the graphics' longevity
10. Design will be supplied by the ARC graphic designer and might differ minimally to the illustrations above
11. Guarantee on work has to be specified
12. Profile of previous work is required
13. Contact details of three clients should be provided
