3. BACKGROUND

The Department of Urban Planning Cooperative Governance and Traditional Affairs (COGTA) introduced the GIS function in 2020. The main aim of introducing this function was to support the implementation of Departmental Programmes through a variety of GIS function, namely, spatial referencing, spatial analysis, spatial budgeting, dashboards etc.

To date, the Department has implemented two Phases of the GIS dashboard. The dashboard has thus far been able to support various programmes within the Department and across the province, i.e. sector departments and some municipalities. In the main, the GIS dashboard has been used to support the implementation of the District Development Model. While progress is being made in this regard, the Department will be expanding the reach and scope of the GIS function through the third phase of the implementation process.

To date, Gauteng COGTA developed a system-based dashboard that amongst others, accommodate role specific sign on as well as the collation of project specific attributes such as location, implementing entity and financial progress. Phase 1 of the project commenced late in 2021 and concluded in February of 2022. The system needed improvements and this prompted the rolling out of phase 2 of the project which concluded in February 2023. However, for the Phase 2 system to assist decision makers, implementing agents, and beneficiary communities with the ability to gain a near real-time operational view of capital project planning and roll out in the province, further support and improvements are required in *Phase 3: Change Management and Decision Support*.

4. OBJECTIVES

Gauteng COGTA requires a service provider to proceed with Phase 3 of the development of a GIS-based dashboard system, specifically focused on change management and process embedding through the Gauteng DDM champion structures. At the end of this project, the aim of Gauteng COGTA is to:

- a. Standardise data collection / import protocols through an existing online Software as a Service (cloud hosted) web-based application;

- b. Use data standardisation practices in line with existing legislation inclusive of Municipal Standard Chart of Accounts (MSCOA) and Framework for Infrastructure Delivery and Procurement Management (FIDPM) for reporting purposes;
- c. Enhance and embed the existing dashboards on an online (cloud-based) web-based application;
- d. Configure administrator managed user-rights and role-management;
- e. Provide training for various DDM Champions on not only how to use the system utilised in Phase 3, but also on the standard communication and data update requirements of Gauteng COGTA; and
- f. Access specialist process support serves for process support inclusive of data collection, champion liaison, dashboard conceptualisation and reporting - up until, and potentially beyond training was provided, within the contract period.

By achieving the above, Gauteng COGTA will be in a position, through existing Inter-governmental Relations (IGR) structures, to:

- Enable district champions to capture / upload / manage capital project information for Gauteng COGTA on the web-based application (either manually or through application programming interface);
- Track the implementation of intergovernmental projects;
- Inform champions on a continual basis on progress made on capital projects;
- Establish mechanisms of transparency with the aim to support decision-making;
- Strengthen existing Inter-governmental Relations (IGR) structures in the form of establishing a Gauteng DDM Technical Task Team;
- Ultimately improve service delivery and management efficiencies;
- Enable Gauteng COGTA to track implementation change over time of capital projects as expressed in the Gauteng Based One Plans;
- Maintain visibility on the One Plan dashboards tracking progress on project implementation across various spheres of government active in Gauteng, through a role managed cloud hosted web-based application;
- Provide training and support to DDM champions on data capturing;
- Set up automated communication (emails) on data progress and completeness;
- Facilitate change management and Inter-Governmental Relation communication lines with the aim to break down silo based planning;
- Inform provincial decision-making (both financial, and spatial through Treasury and Planning Offices) based on data collected through the dashboards;
- Align studies such as socio-economic studies, SDF review studies etc. with the planning practices of Gauteng Provincial government and Gauteng COGTA;
- Enable structured and system based monthly data updates by users;
- Facilitate continual system-based support to update data and extract key reporting metrics;
- Respond to ad-hoc reporting requirements for key decision-makers; and
- Support Gauteng COGTA with specialist process support services in the realm of capital programme management and related processes.

The minimum qualifying score for functionality is indicated as a percentage and is calculated as follows:

a) The score for each criterion is added to obtain the total score; and

b) The following formula is applied to convert the total score to a percentage for functionality:

So

$$Ps = Ms \times 100$$

Were:

Ps = Percentage scored for functionality by bid under consideration

So =Total score of bid under consideration

Ms= Maximum possible score

The percentage of each panel member is added and divided by the number of panel members to establish the average percentage obtained by each bidder for functionality

16. PREFERENTIAL PROCUREMENT SYSTEM

In terms of regulation 4 (1) and (2) of the Preferential Procurement Regulation 2022 responsive bids will be evaluated and adjudicated by the state in terms of the 80/20-point system. Shortlisted bid(s) will be allocated 80 points (maximum possible score) if the competitive price of the acceptable bid(s) is/ are the lowest and 20 points (maximum possible score) to a tenderer for the specific goals specified for the tender and the points will be added to the points scored for price and the total will be rounded off to the nearest two decimal place, subject to section 2(1)(f) of the Act.

The following formula will be used to calculate the points for price:

$$P_s = 80 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

Where

P_s = Points scored for comparative price of bid under consideration

P_t = Comparative price of bid under consideration

$P_{\min}$ = Comparative price of lowest acceptable bid

A maximum of 20 points may be allocated to a bidder for attaining highest specific goals and RDP Goals in accordance with below identified goals by the department:

(vi) The department may elect to use other RDP goals identified in the Government Gazette No: 16085 dated 23 November 1994.

16.1 THE PRICES WILL BE EVALUATED IN TERMS OF 80/20 PRINCIPLE, SPECIFIC GOALS AND RDP GOALS.

Evaluation Criteria	Number of Points
100 % Black Owned Enterprise	5
100 % Women Owned Enterprise	10
100 % Persons with Disability (PwD) Owned Enterprise	2.5
Enterprise located in Gauteng Province	2.5
Total Preference points based on Specific and RDP Goals	20

Note: The total points (out of 100) for the various bidders will be calculated by adding the points for price (out of 80) and the points for Specific Goals and RDP Goals (out of 20).
