TERMS OF REFERENCE

1. PURPOSE

- 1.1 To appoint a service provider to supply and deliver educational material for disaster management and fire services awareness, training and workshops.

2. BACKGROUND

- 2.1 Gauteng is arguably the most developed province in South Africa, with almost 97% of its people living in urban areas. Demographic analysis indicates that high population numbers and migration are key attributes of the province. Millions of migrants from neighbouring provinces and countries settle in Gauteng in pursuit of economic and employment opportunities, which ultimately puts pressure on infrastructure and service delivery in the province.
- 2.2 With the ever-increasing population size, the Gauteng province is subjected to a wide variety of natural and human-induced hazards. These hazards include drought, floods, fires, mining-induced earthquakes, sinkholes and new form of disasters hazards emerging in the form of water shortages and acid mine drainage. The most frequently occurring hazards are floods, severe storms, fires and drought and could potentially result to disaster events.
- 2.3 Enabler 2 of the National Disaster Management Framework of 2005 emphasises the need for disaster management centres to promote a culture of risk avoidance amongst stakeholders through education, training and public awareness supported by scientific research. This Framework, recognises education and knowledge for disaster risk reduction as priority areas of focus of development processes.
- 2.4 The custodian of the Fire & Rescue Services in Gauteng Province is the Gauteng Department of Cooperative Governance and Traditional Affairs (COGTA), within the Provincial Disaster Management Centre (PDMC) a Chief Directorate in the Branch: Development and Planning.
- 2.5 The Public Information Education and Relations (PIER) programme is an initiative driven by the Provincial Fire & Rescue Services Unit (P: F&RS) and promotes safety of communities from fires amongst stakeholders within the province. The PIER programme utilises numerous methods to create awareness in communities including awareness campaigns, news slots, newspapers articles, presentations and door to door campaigns, exhibitions and educational material.

3. THE AIM OF PROCURING AWARENESS AND EDUCATIONAL MATERIAL

- 3.1.1 The Sendai Framework for Disaster Reduction (SFDR) 2015-2030, focusses on understanding disaster risk, strengthening disaster risk governance to manage disaster risk, investing in disaster risk reduction for resilience and enhancing disaster preparedness for effective response and to "Build Back Better" in recovery, rehabilitation and reconstruction. The Framework focuses on five priority areas aimed at addressing

social, economic and environmental vulnerabilities, namely: build institutional capacity; knowing risks; build understanding and awareness; risk reduction and preparedness.

3.1.2 In support of the SFSR, section 30(1) (h) of the Disaster Management Act, 57 of 2002 stipulates that the Provincial Disaster Management Centre must promote disaster management capacity building, training and education, including in schools, in the Province. In addition section 30(1) (j) requires the Provincial Disaster Management Centre to give advice and guidance by disseminating information regarding disaster management in the province to communities that are vulnerable.

3.1.3 Section 6.4.1 of the National Disaster Management Framework also makes provision for training to be conducted outside of the formal primary, secondary and tertiary education systems. It further indicates that the Provincial Disaster Management Centre (PDMC) has a pertinent role to play in the drive to transfer skills and to capacitate disaster risk management stakeholders and other interested persons.

3.1.4 Gauteng Province plays a critical role of supporting municipalities in the optimal delivery of fire services to communities. While the White Paper expands the roles and responsibilities of fire services to the extent that a municipality is responsible for the provision of a fire service in its area of jurisdiction that must include preventing the outbreak and or spread of a fire, by making arrangements amongst others for the provision of information, publicity, training, education in respect of the steps to be taken to prevent fires and death or injury by fire.

3.1.5 In view of the above it is clear that the Provincial Disaster Management Centre has a mandate to ensure ongoing public awareness and training interventions such as short courses, workshops, seminars and conferences to stakeholders. This is to amongst others, strengthen the capacity of the role-players participating in the forums and create a disaster management awareness.

Scores are allocated according to a value matrix ranging from 0 to 5 of which 0 is the lowest score that can be obtained and 5 the highest. The Maximum Possible points are calculated by multiply the weight of each criteria with the highest score (as per the value matrix) that can be obtained.

The minimum qualifying score for functionality is indicated as a percentage and is calculated as follows:

a) The score for each criterion is added to obtain the total score; and

b) The following formula is applied to convert the total score to a percentage for functionality:

$$\frac{So}{Ps} = Ms \times 100$$

Where:

Ps = Percentage scored for functionality by bid under consideration

So = Total score of bid under consideration

Ms = Maximum possible score

The percentage of each panel member is added and divided by the number of panel members to establish the average percentage obtained by each bidder for functionality.

13. PREFERENTIAL PROCUREMENT SYSTEM

The Preferential Procurement Policy Framework Act, Act No 5 of 2000 and its associated amended Regulations 2017 will be applied when evaluating and appointing the preferred service provider. Bids meeting the minimum threshold for functionality will be further evaluated in terms of the 80/20-point system as stipulated in the Preferential Procurement Regulations, 2017. Shortlisted bid(s) will be allocated 80 points (maximum possible score) if the competitive price of the acceptable bid(s) is/ are the lowest and 20 points for a Level 1 B-BBEE status.

The following formula is applied to calculate preference points.

$$Ps=80\left(1-\frac{Pt-Pmin}{Pmin}\right)$$

Where

Ps = Points scored for competitive price of bid or offer under consideration
 Pt = Competitive price of bid or offer under consideration; and
 Pmin = Competitive price of lowest acceptable bid or offer

NB: Bidders are required to, together with their bids, submit original and valid B-BBEE status

level verification certificates or certified copies to substantiate their B-BBEE rating claims. A bid will not be disqualified from the bidding process if the bidder does not submit a certificate substantiating the B-BBEE status level of contribution nor is a non-compliant contributor (unless a specific B-BBEE level is required as a pre-qualification criteria). Such a bidder will score zero out of maximum of 20 points for B-BBEE.

Note: The total points (out of 100) for the various bidders will be calculated by adding the points for price (out of 80) and the points for BBBEE Contributor Level (out of 20).
