PROVISION OF COMMODITY BASED MENTORSHIP IN THE FOUR DISTRICTS OF MPUMALANGA PROVINCE FOR A PERIOD OF 60 MONTHS (5 YEARS)

1. INTRODUCTION

The Department of Agriculture, Rural Development, Land and Environmental Affairs hereby invite prospective bidders who have the necessary skills and capacity to provide mentorship on identified commodities to land reform and other agricultural projects to improve production in the Mpumalanga Province.

2. BACKGROUND

The Mpumalanga Department of Agriculture, Rural Development, Land and Environmental Affairs is currently entrusted with the mandate of the provision of post settlement support to farmers involved in different commodities. Land reform farms have been one of the focus areas, aligning the strategic deliverables according to the seven government priorities. The alignment is that of creating sustainable, vibrant and equitable communities, which can be achieved through productive farms that can respond to the challenges of unemployment and food insecurity. The department has therefore identified mentorship as one of the mechanisms to enhance the productivity of existing farms, such that they are in a position to respond to the domestic demand of food supply and subsequently the demand of the global market.

3. PURPOSE

The purpose of the project is to extend an invitation to reputable and suitably qualified mentors who are aligned to different agricultural commodities that are key in the Mpumalanga Province. The project seeks to identify mentors to be allocated to different projects in all districts of Mpumalanga. Project to be mentored will be in line with the competitiveness of the Province according to Agricultural Policy Action Plan (APAP).

The identified and targeted commodities for this bid are as follows:

- ✓ **Livestock**
- ✓ **Horticulture**

4. PROBLEM STATEMENT

- 4.1 While it is recognized that farm management skills are essential for operating a farming enterprise, majority of the beneficiaries of Land Reform who have embarked on agricultural production have limited basic skills and knowledge of technical agricultural production, record keeping, financial management and value chain management.
- 4.2 The poor performance of several land reform projects, Community Property Associations (CPAs) and Communal land can partly be attributed to poor institutional management capacity of individuals managing these institutions. The challenges lead to the failure of land reform programme.
- 4.3 The Mpumalanga Province has an extensive record of unsustainable and failed agricultural projects as a result of ineffective institutional management. Some Farmer Associations have experienced unprecedented insolvencies and the collapse of several projects has caused a crisis of confidence in the value of these organizations. The Province is therefore faced with the challenge of having to turn around ailing land reform farms, and there is a need to upscale the skills of land reform farms, to respond to the mandate of Sustainable and Land and Agrarian Reform. This can be achieved through an integrated approach with industry and stakeholders, through coordinated effort towards upscaling the capacity of land reform farmers.
- 4.4 The importance of mentorship through established commodity based organizations is important, as mentorship is a long-term relationship that is intended to equip farmers and new entrants in agriculture will have the capacity and skills to run the land reform farms and remain in the market, to resolve the agrarian challenge.

5. OBJECTIVES

To empower farmers through the provision of skills and knowledge based mentorship in their specific areas of agricultural businesses. Institutional management should also be provided to achieve improved efficiency of production systems resource utilization.

6. TERMS OF REFERENCE

- 7.8 to provide close out report at the end of the mentorship programme, report to be aligned to the expected deliverables.

8. GUIDELINES ON IMPLEMENTATION STRATEGY

Two approaches are recommended in implementing the mentorship programme:

- (a) ***A mentorship approach for individual emerging farmers.*** This involves mentoring individual farmers/farms/projects to enhance skills in performing specific farm production tasks, turning around the ailing farms/projects such that they are operating at a business level. This relates to an efficient capacity building programme as a systemic approach towards efficient mentorship output, which achieves an empirically proven transformation of the target recipients from their original level to a new higher level of production and performance
- (b) ***A mentorship/coaching approach for farmer organisations/projects.*** This involves finding an expert in a specific field (e.g. financial management of a Cooperative) and placing that expert with the farmer organisation/project over a number of weeks to develop internal human resource capacity and expertise required by the farmer organisation/project. This approach is supplementary to the skills of the mentor, and the mentor will bear the cost of attracting a specialist/ expert in the specific field and the department will reimburse the actual cost plus 10% administration fees.

9. PROPOSAL FORMAT

- 9.1 A detailed proposal indicating the related experience that demonstrates the relevancy to the terms of reference
- 9.2 An approach or strategy of how the Entity/Company and/or Business will structure the mentorship programme
