TERMS OF REFERENCE

1. Background

The Eastern Cape Parks and Tourism Agency (ECPTA) is an implementing agent on the N2 Wild Coast Biodiversity Offset Project which is guided by the Biodiversity Offset Policy and the Eastern Cape Protected Area Expansion Strategy (ECPAES), a systematic conservation planning product that identifies priority areas for conservation estate expansion and is aligned to the National Protected Area Expansion Strategy (NPAES).

The project is designed to successfully compensate for significant negative residual impacts on biodiversity arising from project development after appropriate prevention and mitigation measures have been taken. The N2 Wild Coast Toll Highway (hereinafter referred to as the 'N2') was granted a positive record of decision (RoD) in terms of the Environment Conservation Act, 1989, on 19 April 2010. This required that a Biodiversity Offset Agreement (BOA) and all feasible alternative options must be considered. Subsequently, the ECPTA signed an agreement with SANRAL to implement the N2 Wild Coast Biodiversity Offset project per the terms and conditions of the memorandum of agreement and the Biodiversity Offset Agreement. Therefore, the ECPTA has negotiated potential offset candidate sites in the Wild Coast for the Biodiversity Offset project ranging from the Umtamvuna to uMzimvubu Rivers. These candidate sites are mostly along the coastal line.

2. Objective

The ECPTA commissioned a Service Provider to develop management plans, quantify the scope of work for each candidate sites and produce implementation plans for the N2 Wild Coast Offset Project. These documents highlight key principles associated with the drivers of degradation, basic ecosystems rehabilitation and management of the sites. The document will be shared with the Service Providers that are placed on the Panel

The ECPTA will appoint a maximum of Five (5) companies based on highest points scored on functionality assessment. If the required maximum number of Bidders has not been attained by the ECPTA, the ECPTA will proceed with the appointment with or without the required maximum

number(s). In the event of such occurrence, the ECPTA shall not be obligated to re-issue a tender for the purposes of augmenting the shortfall nor is any expectation created. Any such decision will therefore be solely at the ECPTA's discretion.

The scope and extent of work shall be specified for each project by the ECPTA on an "as and when" required basis. The Project Management Companies on the panel will be required to respond to a Request for Proposal (RFP) or Request for Quotation (RFQ) on an "as and when" required basis.

3. Scope of Work

The Eastern Cape Parks and Tourism Agency (ECPTA) intends to ensure optimal biodiversity enhancement through the Integrated Ecosystem Rehabilitation of all terrestrial ecosystems on the Biodiversity Offset project sites. The successful bidder(s) will facilitate and manage the implementation of the new Integrated Ecosystem Rehabilitation contract as outlined in this Scope of

Works. The service provider's responsibilities will be to ensure that the required tasks, products, and services as per the Scope of Works are rendered on time and within budget.

The scope of the works comprises the Integrated Ecosystem Rehabilitation of terrestrial ecosystems in the Biodiversity Offset areas. The names and location of the sites are listed below in Table 1.

- Curtailment of bush encroachment through the following activities.
 - ✦ Small scale removal of invasive shrubs, weeds, or grasses
 - ✦ Treatment of infested areas with herbicide
 - ✦ Demarcation of fire breaks on the perimeter
 - ✦ Gabion construction
 - ✦ Reclamation of Dongas
 - ✦ Planting of vetiver grass
 - ✦ Tree planting
 - ✦ Storm water channels
 - ✦ Education and awareness
- Improve degraded ecosystems including Grasslands and Forests

- Enhance plant communities, animal habitats for faunal species that would inhabit these above specified terrestrial habitats (bush encroachment)
- Repair and stabilization of any soil erosion that occurs in the project area (Soil erosion mitigation)
- Recreation of native terrestrial habitats towards the conservation of biodiversity
