- 35% excludes VAT, CPA and Contingencies.
- The tenderer will be required to achieve the actual Rand value committed for CPG, adjusted according to the following:
 - Variation Orders – Each VO will be evaluated by the Employer's Agent and the Project Manager to determine whether it should be counted, in its entirety or partially, as part of CPG or not.
 - Re-measurable Items (including CPA, and provisional sums) – Each re-measurable item change will be evaluated by the Employer's Agent and the Project Manager to determine whether it should be counted as part of CPG or not.

Within 2 weeks of the award of contract, the tenderer will be required to submit a cash flow projection for the main Service Provider and the CPG Partner/s

Applicability

The CPG target is applicable to all contracts to be adjudicated through the Umgeni Water procurement process and shall be achieved through the following mechanisms:-

- CPG Partner/s selection is concluded **after** adjudication of tenders and **before** contract award is made.
- The CPG Partner/s shall be selected according to the following criteria:

- CPG Partner/s are to be obtained from Umgeni Water's database of suppliers specifically earmarked for CPG purposes.
- In the event of services where Umgeni Water does not have an applicable service provider on its database, the tenderer may propose a suitable CPG Partner/s for consideration by Umgeni Water.
- Main service provider may propose a suitable CPG Partner/s, but Umgeni Water reserves the right to provide or arrange a CPG Partner/s to work with the successful company.
- Sub-contracting of the CPG Partner/s at the same rate / price that the tenderer would have offered to Umgeni Water whilst making profit margins consistent to the profit margins that the main Service Provider would have made under normal trading processes.
- Value of the work to be sub contracted shall be at least **35% (minimum of 5% shall be due to Black Women participation and another 10% for Local participation)** of the total contract value excluding VAT, CPA and Contingencies.
- CPA is payable to the CPG Partner/s as per the indices stipulated in the contract document.
- The work allocated to the CPG Partner shall be performed by the CPG Partner directly and may not be allocated or sub-contracted out to other service providers.
- The main Service Provider **shall not** substitute any CPG Partner/s without the written approval of Umgeni Water.
- The working capital arrangements between the main Service Provider and the CPG Partner/s must be agreed upon between the two parties prior to commencement of works to ensure that the CPG Partner does not have cash flow challenges during contract implementation.

Invoicing and Payment

The monthly measurement and payment will be according to the following guideline:

- Submission of payment certificate to the Employer's Agent by the Service Provider– by 20th of each month, or the nearest previous working day. The submission from the Service Provider shall include the signature of the CPG Partner indicating agreement with the measurements and rates applicable to the work undertaken by the CPG Partner.
- Submission to Umgeni Water by the Employer's Agent – by 25th of each month, or the nearest previous working day;
- Payment to the Service Provider on the last day of the following month;
- The CPG Partner must be paid within reasonable time but no later than 3 working days after the Main Service Provider has been paid by Umgeni Water; and
- The submission from the Service Provider must include a schedule that clearly shows the following:
 - Total Contract Sum
 - Total amount payable to CPG Partner/s excluding current month
 - Amount payable to CPG Partner for current month
 - % split of Total amount payable to Main Service Provider and CPG Partner/s

Monitoring and Reporting on CPG

- Umgeni Water will monitor CPG implementation on site. This may include direct contact with CPG Partner/s on site for verification purposes.
- The CPG Partner shall be in agreement with the measurement and payment for work completed, for the purposes of submitting payment certificates, as determined by the Service Provider. Should disagreements arise, Umgeni Water reserves the right to intervene to resolve the disagreement.
- CPG Partner/s shall attend all contractual meetings relevant to their scope of work including contract award negotiations, monthly contract site meetings and technical meetings.

Eligibility Criteria

For tenders where the CPG target is applicable, those that do not offer a **minimum** CPG participation of **35%** (including minimum 5% Black Women participation and another 10% for Local participation) according to the requirements mentioned above, will be deemed **ineligible**.

In terms of the Cabinet decision, all state and State Owned Entity purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

• PILLARS OF THE PROGRAMME

- The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
 - (a) Any single contract with imported content exceeding US\$10 million.
 - or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.
 - or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.
 - or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a pro-rata basis.
- To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.
- A period of seven years has been identified as the time frame within which to discharge the obligation.

• REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- In order to ensure effective implementation of the programme, successful tenderers (Suppliers) are required to, immediately after the award of a contract that is in excess of R10 million (ten million Rands), submit details of such a contract to the DTI for reporting purposes.
- The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

• TENDER SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF TENDERERS AND SUCCESSFUL TENDERERS (SUPPLIERS)

- Tenderers are required to sign and submit this Section together with the tender on the closing date and time.

- In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1(d) above and to enable the DTI in determining the NIP obligation, successful tenderers (Suppliers) are required, immediately after being officially notified about any successful tender with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

(a) Tender / contract number.

(b) Description of the goods, works or services.

(c) Date on which the contract was accepted.

(d) Name, address and contact details of the government institution.

(e) Value of the contract.

(f) Imported content of the contract, if possible.

- The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted on telephone (012) 3941401, facsimile (012) 3942401 or e-mail at Elias@thedti.gov.za for further details about the programme.

• **PROCESS TO SATISFY THE NIP OBLIGATION**

- Once the successful tenderer (Supplier) has made contact with and furnished the DTI with the information required, the following steps will be followed:
 1. the Supplier and the DTI will determine the NIP obligation;
 2. the Supplier and the DTI will sign the NIP obligation agreement;
 3. the Supplier will submit a performance guarantee to the DTI;
 4. the Supplier will submit a business concept for consideration and approval by the DTI;
 5. upon approval of the business concept by the DTI, the Supplier will submit detailed business plans outlining the business concepts;
 6. the Supplier will implement the business plans; and
 7. the Supplier will submit annual progress reports on approved plans to the DTI.
- The NIP obligation agreement is between the DTI and the successful tenderer (Supplier), and therefore, does not involve the purchasing institution.

The supplier is required to hold stock of raw material, equivalent to a single month supply, based on average usage of product by the sites, at his premises and costs. The purchaser reserves the right to audit the stock holding of the raw material at the Supplier's premises, at any time during the contractual period. Should this ever drop to a level below one month of stock, the purchaser is to be immediately notified. Assurance of supply of Ammonium Hydroxide solution is required to ensure public health and also to ensure that the final water provided by three plants complies with the South African National Drinking Water Standard (SANS 241:2015).

Any increase in price as a result of such change will be for the Supplier's account. If the product supplied or its delivery and offloading damages Umgeni Water's property; the service provider will be liable to pay for the damages.

Following such a change in chemical dosage, the onus will be on the Supplier to demonstrate to Umgeni Water that the chemicals are once again capable of treating the raw water satisfactorily.

The following general environmental rules must be complied with:

9.1 Good Housekeeping

Work areas must be kept in a clean and tidy condition. All work areas shall be clearly demarcated as such with a barrier tape. After the completion of each day's work the Contractor must make good and clean up the site area where work was performed, and also at completion of the contract.

Refuse, especially flammable materials such as waste rags, waste paper, etc., may only be placed in suitably marked refuse bins with lids. The use of flammable solvents for cleaning purposes must be avoided.

Littering on site is prohibited. Steps must be taken to prevent litter from entering storm water drains at all times.

9.2 Hazardous Materials

Contractors must obtain clearance for taking their own chemicals for cleaning, or other purposes, onto the premises. For clearance, materials data sheets for the chemicals (which include spill/leak clean-up procedures) must be submitted to the responsible Umgeni Water employee. It is essential that contractor personnel understand the hazards and safe handling precautions to be taken when chemicals are being used.

9.3 Waste Handling & Disposal

The responsible Umgeni Water representative must be contacted in advance of proposed removal and/or transfer of wastes (hazardous or non-hazardous).

Ad-hoc dumping on any part of the premises is strictly forbidden.

Hazardous waste generated on site may only be removed by an approved waste contractor. Copies of waste transfer certificates must be filed with the Umgeni Water representative.

Liquid waste or effluent must be prevented from entering stormwater sewer systems.

9.4 Spills/Leaks

In the event of any substance stored in tanks or in transfer pipes (or delivery tankers) being accidentally, or otherwise, released, the responsible Umgeni Water representative must be contacted immediately. Unauthorised tampering with Umgeni Water equipment is strictly forbidden.

9.5 Noise and Nuisance

Machinery to be used on site must be operated such that the likelihood of noise pollution or any form of nuisance is reduced.

10.0 ALCOHOL OR INTOXICATING SUBSTANCES

The Contractor shall not allow alcohol or other intoxicating substances on site. Anyone suspected to be under the influence of alcohol or any other intoxicating substance shall not be allowed on the site.

11.0 AWARENESS OF IDENTIFIABLE POTENTIAL HAZARDS

11.1 Prior to commencement of any work on an Umgeni Water site, the appropriate Umgeni Water Representative will take every care to indicate and explain to the Contractor any identifiable potential hazard/s specific to any particular site.

11.2 After the Umgeni Water Representative has indicated and explained to the Contractor any identifiable potential hazard/s specific to a site, he will detail any such hazards on Appendix 2 hereto and the Contractor must then complete and sign Appendix 2 in acknowledgement thereof.
