**TERMS OF REFERENCE: FOR THE APPOINTMENT OF A SERVICE PROVIDER TO
REVIEW THE LAND USE SCHEME FOR LESEDI LOCAL MUNICIPALITY FOR A
PERIOD OF TEN (10) MONTHS.**

1. INTRODUCTION

- 1.1 The Department of Agriculture, Land Reform and Rural Development (DALRRD) requires the services of one (1) firm or a consortium of suitably qualified service providers to review the Land Use Scheme for Lesedi Local Municipality in the Gauteng Province.
- 1.2 The apartheid planning system of the past caused several challenges that led to the disempowerment of municipalities in dealing with land development, management, and the regulation of land use activities. As a result, municipalities employed a diverse approach in addressing land use management in different areas of a municipality.
- 1.3 As per Section 27 of the Spatial Planning and Land Use Management Act, Act No 16 of 2013 (SPLUMA) a Municipality may review its land use scheme in order to achieve consistency with the municipal SDF and must do so at least every 5 years.
- 1.4 The present Lesedi Land Use Management Scheme, 2018, has some shortcomings in alignment, managing land use in rural and informal areas, and this issue is also evident in the Municipality.
- 1.5 The need therefore exists to review the land use scheme for the municipality to ensure harmonious and coordinated land use control.

TERMS OF REFERENCE: FOR THE APPOINTMENT OF A SERVICE PROVIDER TO REVIEW THE LAND USE SCHEME FOR LESEDI LOCAL MUNICIPALITY FOR A PERIOD OF TEN (10) MONTHS.

2. BACKGROUND

- 2.1 Lesedi Local Municipality is a category B municipality; that falls within the Sedibeng District Municipality in the Gauteng Province.
- 2.2 Lesedi spans an area of $\pm 1430\text{km}^2$, which is largely rural, with two towns situated within it, namely Heidelberg/Ratanda in the western part, and Devon Impumelelo on its eastern edge. The area can be described as mostly agricultural, with Heidelberg and Devon being the primary service centers for the surrounding agricultural areas. The municipal area of Lesedi municipality encompasses both urban and rural regions, with a mix of formal and informal settlements. This diverse composition presents a unique set of challenges and opportunities for the local administration. The municipality must balance the needs of the urban and rural populations, while also addressing the varied settlement patterns within its jurisdiction. Effective management of these complexities is essential for the sustainable development of the region.
- 2.3. The areas within the municipal boundary is governed by the Lesedi Land Use Management Scheme, 2018.

3 PROBLEM STATEMENT

- 3.1 The gaps expressed in the Lesedi Local Municipality LUS have created challenges with its land use management. This has resulted in misalignments with the adopted Municipal Spatial Development Framework (MSDF) and fragmented development patterns that hinder the integration and sustainability of social, economic and environmental elements. Consequently, the institutional arrangements have been weak and uncoordinated, which has led to incoherent planning procedures and systems within the municipality.

TERMS OF REFERENCE: FOR THE APPOINTMENT OF A SERVICE PROVIDER TO REVIEW THE LAND USE SCHEME FOR LESEDI LOCAL MUNICIPALITY FOR A PERIOD OF TEN (10) MONTHS.

- 3.2 The current situation poses significant challenges for the municipality, and it is imperative that appropriate measures be taken to address the issue. This requires a comprehensive approach that integrates the various elements of land use management and promotes sustainable development practices. This will require the involvement of all stakeholders and the development of a coherent institutional framework that fosters collaboration and coordination.
- 3.3 The LUS that has been in place for some six years now has become obsolete in light of the misalignment to the MSDF and missed opportunity to cater for contemporary developmental challenges confronting Lesedi Local Municipality, thus the scheme has become outdated and contradictory to the other planning tools available in the municipality. Consequently, there is a need to review the Lesedi Local Municipality LUS and ensure that it covers the entire administrative jurisdiction of the municipality.
- 3.4 The Lesedi Local Municipality LUS will draw its foundation from the Lesedi Spatial Planning and Land Use Management By-Law and align with the legislative and normative principles of the SPLUMA. As per the act, a municipality must adopt and approve the reviewed single land use scheme for its entire area.

4. PURPOSE AND OBJECTIVES OF THE PROJECT

- 4.1 The purpose of this project is to create a simplified yet comprehensive LUS that promotes single and harmonious development of the municipal area while also preserving the natural environment. The LUS will encompass all areas within Lesedi Local Municipality's jurisdiction.
- 4.2 The purpose of this project is to create a simplified yet comprehensive LUS that promotes single and harmonious development of the municipal area while also

preserving the natural environment. The LUS will encompass all areas within Lesedi Local Municipality's jurisdiction.

- 4.3 To develop a LUS that will give effect to and be consistent with the MSDF and determine the use and development of land within the municipal area to promote economic growth, social inclusion, efficient development and to minimize the impact on public health and natural resources.
- 4.4 To bridge the gaps and inconsistencies created by multiple planning tools used when considering development proposals within the municipality.
