TENDER 29925 (5E) – QUESTIONS AND ANSWERS

TENDER DISCRIPTIONN: **DISCONNECTION, RECONNECTION AND INSPECTION OF ELECTRICAL SERVICES/METERS WITHIN THE SUPPLY AREA OF ETHEKWINI ELECTRICITY DURING A THIRTY-SIX MONTH PERIOD**

DATE: 07/08/2025

	RECEIVED QUESTIONS	ANSWERS
1	May I please have clarification for level2 if we must attach their competent cards and id's or only id's. For Electricians, where do we get the competency certificate, do we get printouts from the training centre?	Refer to T2.2.18 on page 60 for the supporting documents that need to be submitted for electricians and T2.2.19 on pages 61-62 for the Disconnectors. The competency certificates are issued by the Training Centre at the completion of the training.
2	I am writing to kindly request clarification regarding the nature of the recently advertised tender, Contract No: 29925-5E. We would like to confirm whether this contract is intended as a panel appointment (with multiple service providers to be appointed) or a once-off, project-specific appointment.	It is intention of eThekweni Electricity to appoint up to three compliant companies.
