CONTRACT PRICE ADJUSTMENT SCHEDULE

1. **Contract Price Adjustment** In accordance with sub-clause 13.8, the value of each certificate issued in terms of sub-clause 14.6 shall be increased or decreased by the amount obtained by multiplying "Ac", defined in clause 2 of this Schedule, by the Contract Price adjustment factor, rounded off to the sixth decimal place (or the fourth decimal place if expressed as a percentage), determined according to the formula:

$$(1 - x) \left[\frac{aLt}{Lo} + \frac{bEt}{Eo} + \frac{cMt}{Mo} + \frac{dFt}{Fo} - 1 \right]$$

in which the symbols have the following meanings:

"x" is the proportion of "Ac" which is not subject to adjustment. Unless otherwise stated in the Appendix this proportion shall be 0,15.

"a", "b", "c" and "d" are the co-efficient determined by the PROJECT MANAGER and specified in the Contract Data, which are deemed, irrespective of the actual constituents of the work, to represent the proportionate value of labour, equipment, materials (other than "special materials" specified, in terms of sub-clause 13.8, in the Contract Data) and fuel respectively. The arithmetical sum of "a", "b", "c", and "d" shall be unity.

"L" is the "Labour Index" and shall be the "Consumer Price Index for all items" for the urban area specified in the Contract Data, as published in the Statistical Release P0141.1, Table A, of Statistics South Africa.

"E" is the "Equipment Index" and shall be the "Plant and Equipment list" from the "Mining & Construction Plant & Equipment Price index" as published in the Statistical Release P0151.1, Table 4, of Statistics South Africa..

"M" is the "Materials Index" and shall be the "Civil Engineering Materials Price Indices", as published in the Statistical Release P0151.1, Table 6, of Statistics South Africa. Note that "Civil Engineering Material (Excl. reinforcing metal work & bitumen)" is applicable to this project.

"F" is the "Fuel Index" and shall be the index for diesel, as published in the Statistical Release P0142.1, Table 1, of Statistics South Africa

The suffix "o" denotes the basic indices applicable on the Base Date as defined in sub-clause 1.1.3.1 of the General Conditions of Contract.

The suffix "t" denotes the current indices applicable to the month in which the last day of the period falls to which the relevant payment certificate relates.

If any index relevant to any particular Payment Certificate is not known at the time when the certificate is prepared, the Engineer may estimate the value of such index. Any correction which may be necessary when the correct indices become known shall be made by the Engineer in subsequent Payment Certificates.

2. Assessment of amount subject to adjustment

For the purpose of calculating the adjustment to the value of the certificates, the amount "Ac" shall be determined by the formula:

$$Ac = T - S - D - W - G - Ap$$

In which formula the symbols have the following meanings:

"T" is the summation of the total value of the

- (i) preliminary and general items,
- (ii) work done, and
- (iii) Materials on Site

as certified in the Payment Certificate under consideration without any deduction whatsoever and before any adjustment made in terms of this Schedule

"S" is the aggregate of (i), (ii), (iii) and (iv), referred to below, and included in "T":

- (i) the amounts actually expended and substituted for any prime cost sums;
- (ii) the value of any work done by Nominated Subcontractors;
- (iii) the value of any work done against Provisional Sums
- (iv) the value of any extra or additional work done under a Variation order

where special arrangements for price adjustments in respect of those amounts were made and recorded at the time the work was ordered.

"D" is the value of work included in "T" and done at new rates fixed in terms of sub-clause 12.3, where those rates are not based on labour, Contractor's Equipment or Materials costs in force at the time of tendering. Generally new rates may be based on current costs and de-escalated to the Base Date of the indices, in which case work done at these rates shall not be included in the value of "D".

"W" is the amount included in "T" and paid for any Day work executed at Cost plus percentage allowances as set out in sub-clause 13.6 as amended by Particular Condition.

"G" is the amount included in "T" for Materials classified and dealt with as "special materials" in terms of sub-clause 13.8 as amended by Particular Condition.

"Ap" is the summation of all "Ac" amounts determined in terms of Clause 2 of this Schedule for all Payment Certificates preceding in time the Payment Certificate under consideration.

3. Reduction of CPAF after Time for Completion has expired

Save only for Variations ordered to be carried out after the Time for Completion has expired, the Contract Price adjustment factor to be applied to certificates relating to work done or materials supplied after the of the Time for Completion shall be half the factor calculated by inserting in the formula referred to in Clause 1 of this Schedule the indices Lt, Et, Mt and Ft applicable at the date of expiry of the Time for Completion.

4. Special

The price of each "special material" specified in the Contract Data shall be

TENDER NUMBER: DRT 09/04/2024 SUPPLY AND DELIVERY OF G1, G5, G6 AND G7 ROAD CONSTRUCTION MATERIALS FOR A PERIOD OF THREE YEARS TO THE DEPARTMENT

materials

increased or decreased by the net amount of any variation incurred after the date of the Tender on the basis set out in the Contract, provided that any claim for adjustment in terms hereof shall be substantiated by the submission of acceptable invoices and any other supporting documents which the Engineer considers necessary for that purpose. However, except for Variations ordered in terms of Clause 13 (Variations and Adjustments) all adjustments after expiry of Time for Completion shall be calculated by using the price of each "special material" at expiry of Time for Completion or the contract base price of each "special material", whichever is the lesser.

For the purpose of this clause, "the net amount of any Variation" in respect of a particular material referred to as a "special material" in terms of sub-clause 13.8 shall be calculated by multiplying the difference between the rate or price entered in the Contract by the Contractor for that Material and the equivalent rate or price actually paid by the Contractor for the Material by the quantity of the Material in question.

5. **Assessment of indices if certificates are not issued monthly**

If more than one month intervenes between the months applicable to any Payment Certificate and the month applicable to the immediately succeeding payment certificate, then the indices "Lt", "Et", "Mt" and "Ft" applicable to the succeeding Payment Certificate shall each be taken as the arithmetic mean, rounded off to the second decimal place, of the relevant indices applicable to the month of measurement and to such intervening months.
